American Markets.
CHICAGO, Dec. 3.—Wheat was fairly active and firm today on bullish statistics, higher cables and a reduction in the estimate of Argentine surplus for January closing 1/2c higher. May corn closed 1/4c up, and May oats 1/4c to 1/2c improved. Provisions at the close were about the same.

Butter—Little changed from Saturday. January wheat opened 1/2c to 3/4c under the influence of an advance at Liverpool. The world's shipments were 2,000,000 less than estimated, the amount being only 1,855,000 bu. and a decrease of 800,000 bu. on passage. The heavy northwest receipts caused selling during the forenoon, and January reacted to 70 1/2c. Later the visible decrease of 82,000 bu. at a private estimate, reducing the Argentine exportable surplus to 27,000,000 bu., and reports of export inquiries at the seaboard, where the market showed considerable strength, resulted in a rally to 71 1/2c for January. On local profit taking January reacted to 70 1/2c, but closed firm 1/2c higher, at 70 1/2c. The seaboard clearance in wheat and flour were equal to 433,000 bu. Primary receipts aggregated 1,394,000 bu., compared with 657,000 bu. last year. Minneapolis and Duluth reported 912 cars, against 632 last week, and 820 a year ago. Local receipts were 126 cars, 5 of contract grade. Estimated receipts tomorrow: Wheat, 150 cars; corn, 550 cars; oats, 325 cars; hogs, 34,000 head.
