SPECKS BEFORE THE EYES.

Seeing Things In The Day Time.

There are Thousands of Persons Afflicted This Way. Ninety - Nine main, yours very truly, C. B. EDWARDS. Times Out of One Hundred It Is Caused by Either the Liver, Stomach, Bowels or Digestive Organs.

In no part of the body are the effects of coustipation more quickly noticed than in the condition of the eyes. They quickly respond to the poisonous elements which are absorbed into the blood in chronic cases of liver torpidity and sluggish bowel action. When you see a yellowish tinge in the whites of the eyes it shows quickly the biliousness which pervades the whole system; but it is the specks and flitting objects in the vision itself that are even more quickly apparent. Thousands of people see things in the daytime; their vision is blurred, spots come between them and other objects which seem quite intangible, almost maginary, and as they turn their heads they vanish as with a flash. Such conditions can always be traced to a torpid liver and a congested condition of the bowels, yet can always be cured by the well-advised use of Smith's Pineapple and Butternut Pills, which cure constipation as if by magic. They regulate the functions of the liver, cleanse the poisons from the blood, remove the bilious elements from the circulation and strengthen the nerves. If your eyes are clouded without an appreciable cause, if you have specks and floating objects before your vision, use Smith's Pineapple and Butternut Pills and get the poisonous elements out of your blood. Remember they always cure sick headache, constipation and biliousness in one night. 25 cents, all dealers. All genuine signed by W. F. Smith.

BRISK DEMAND FOR MORE CHARGES NEW HOTEL STOCK AGAINST W. BOYCE

Other Schemes of This Nature He Failed to Hand Over Money Somewhat Muddled - The Commissioners Busy. -Other Misdeeds.

Though the new hotel scheme has not been advanced in any degree the past few days, it is known there has been a constant inquiry for stock, and it is said that if the scheme was pushed, the \$50,000 asked by the Toronto capialists could be secured in a few days. Hotel matters are in a very muddled condition in London just now. In regard to the erection of a new house, there are men in London who are ready to put their money into such a venture, though, of course, they are not willing to go in for such a fine structure as the Toronto people propose to put up here. It is pretty well agreed that Hogs, fats and lights...... 6 00 @ 6 00 London has room for a new hotel, and Trade was brisk; most of the good cattle were bought the night before, with-out seeing them, prices were higher than clare that even though another firstclass house was established here, there

would still be room for an up-to-date, \$2 a day house. The men who have the money are slow about going into such a venture. because of the fact that no person appears to know just what is going to happen. It is understood that several hotel men contemplate extensive changes in their premises, and it is a natural deduction that if half a dozen of the present houses are vastly improved and modernized, and a big new hotel is added to the existing list of hostelries, there will not be room

for any more hotels. In half of the hotels of London everything from a business standpoint is topsy-turvy just now. A new broom sweeps clean, and it is said that the new commissioners are daily and nightly making inspections, which are al-Antwerp, April 12.-Petroleum, 17 francs ways followed by suggestions as to what is needed to bring the hotel up to the standard demanded by the license act. And, of course, the hotel men have no desire to antagonize the commission, and they are daily schem-

requirements of the law. Then the possibility of the Grand Oil City, Pa., April 12.—Credit balances, Trunk depot being removed to a site \$1.33; certificates, no bid; shipments, 685,119 further east has a disturbing effect upon local hotel men, and a deterrent effect upon those who are willing to put their money into a new hotel. There has been some talk of a new hotel go-ing up on the corner of York and Clarence street, on the site of the present Brunswick House, provided, of course, that the depot remains in its present location. This scheme was on a couple of weeks ago, but it is understood that the value placed on the property by the owners has knocked out the project

A Correction.

To the Editor of The Advertiser: An article appears in this evening's Advertiser under the caption, "Unitarians Dine." It calls for some explanation and correction.

The "supper" was held under the auspices of the "Liberal Christian Union," an association formed in December last. It is strictly undenominational and non-sectarian, and is organized on a basis similar to that of a Canadian club. Being purely demoeratic in spirit, its members may belong to any religious denomination, to any political party, or to none at all. The guests upon this occasion happened to be Rev. G. H. Badger, of New York; Mr. W. H, Brick, of Toronto, and number of friends from the city. A Unitarian church has recently been formed in London, the officers of which, will, I presume, be announced to the public in due course; but "The Liberal Christian Union," of which I have the honor to be president, is quite independent, and distinct, from ony church or denomination. Yours truly, F. W. DALY.

London, April 12, 1905. YOUTHFUL VAGRANTS

Three G'rls and a Youth Found in a

Barn and Arrested. Three girls and a youth were arrestd last night in a barn on Dundas street and brought to the police station. All of them pleaded not guilty in the police court to charges of vagrancy. The young man, who appeared in the county court only yesterday on a charge of malicious damage to property, was fined \$10 or 21 days in ja il, and the three girls were remanded for a week. The fine was not paid, and all four went back to the jail.

Belonging to His Employer

Two more charges of theft were brought home to Wesley Boyce this morning. Be-sides the one of which he was found guilty a week ago (stealing from Livery-man Vanderburg), there were also charges from Liverymen Hueston and Cullis. In the first case Boyce was accuse In the first case Boyce was accused of purloining \$2, which he had collected from a passenger and had not turned in to Mr. Hueston. To this charge Boyce pleaded

He refused to plead guilty to the charge of stealing a pair of martingales from Mr. Cullis, however, and evidence was taken against him. Mr. Culis said he owned the martingales which were produced in court, and said they had been stolen from his office. Detective Rider said he framing of the measure, despite the ex-minister's statement to the confound the articles at Liveryman Dyer's.

In 1896 the Prime Minister was found the articles at Liveryman Dyer's, and the latter said that he had given them to the detective.

Mr. Timothy Grace said he bought a pawn ticket from Boyce for 25 cents, and that he had redeemed the martingales for another 30 cents. Boyce had told him that and separate schools were being se-pawning of the articles, and also of their edemption, were shown in the pawn west.

Boyce took the stand and told practicalboyce took the stand and told practically the same story which he had given in his previous trial—that he bought the martingales from an auctioneer on the market in March. He could not give the name of the auctioneer. He had had them for about a week before pawning them, he said. e said. "Now, don't you think that it would

ed guilty to this charge rather than get up and tell the same story upon which you were convicted before?" the rown attorney asked Boyce.
"No, sir. The story which I am telling you is the truth," was the prison-

The magistrate found Boyce guilty,

and remanded him for another week on all three charges. Charles Alexander Reid, who pleaded guilty to several charges of theft, appeared again. The magistrate said he had been informed that there had been other thefts in the vicinity in which Reid had been, and he wished to give him time to seriously consider the matter. It would be better for him if

plainant. Allen Lindsay was arrested last evenng while in company with a wellknown local character, and this morning he said that he came from Toronto here on the C. P. R. A piece of candle which was found in his pocket made the police slightly suspicious and he was remanded for a week. He said his father lived at 422 McCaul street,

BOWLED OUT OF COURT

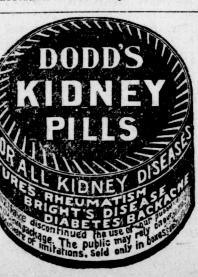

The Michigan Central Loses Action Brought Against L. E. and D. R. R.

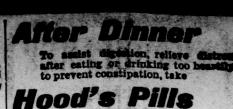

The case of the Michigan Central vs. the Lake Erie and Detroit River Railway Company was bowled out of court cover the whole calendar year, as is dertaken by the defendants to ship all reached by plaintiffs' lines and their connections, up to \$35,000 per annum, meant that defendants should ship by plaintiffs' lines all freight which could be shipped by such route as defendants might be free to select as between the shipper and the defendants, to such an extent as to yield plaintiffs an annual revenue from such freight of the aforesaid \$35,000. The court further ordered a reference to J. A. McAndrew, official referee, to ascertain what amount has not been received by plaintiffs in spect of tolls for any controllable freight shipped by defendants contrary to said agreement. The Lake Erie appealed, and the appeal was allowed, and the action dismissed with costs.

MYSTERIOUS ROWER

Panopathic Professor—Heals Hopeless Invalids.

Patients Given Up by their Physicians and DEAD ARE RESCUED

FROM THE GRAVE and Restored to Life and Health by This Man, Who Says There Is No Disease He

May Not Cure. Makes Human Heart Beat Again.

In Body of Woman Threatened with Burial.

bandons Private Practice and Useless Drugs and Gives Service and Home Treatment to the Sick and Afflicted.

New York, April 11.-Special Correspondence.-William Wallace Hadley, the lamous Professor of Panopathy and Physiactics, has again demonstrated his mysterious power over disease. He shows that the drugs prescribed by doctors and the surgeon's knife are often worse than useless, and by healing hundreds of hopeless invalids pro-nounced incurable by physicians he proves his claims that there is no disease he may not cure. In defiance of the supposed laws and rules of modern medical practice and the theories of physicians and specialists, he has made the human heart beat again in the body of a woman prepared for the grave, and performed other seeming miracles of restoration to life and health of men and women given up to death. Indeed, he succeeds in the face of such apparent impossibilities that he appears to possess a healing power unequaled in either ancient or modern times—a power above and beyond that given to ordinary mortals. In comparison, the successful operations of the world's greatest specialists become insignificant child's play. Apparently the supposedly incurable diseases, such as paralysis, consumption, heart disease, cancer, deafness, etc., are cured by him just as easily as the more common disorders of humanity. Go-ing still further, he has proved that can cure patients in their own homes, thousands of miles away, just as quickly and surely as though they came to him in person. To extend the blessing of this wonderful power to mankind, there remained but one thing for him to do, and that he has done by abandoning his private practice and offering his services free of charge to all who stand in need. He is quoted as saying that he feels it his religious ependent of any reward.

luty to help the sick and afflicted, in-One of the cases that makes possible the belief that Professor Hadley's power approaches supernatural control over disease even to the point of death is that of a Mr. E. C. Bess, of El Campo, Texas, who was rescued from the grave after the doctors had given him up to die, could do nothing to revive him and left him for dead. Brought to this condition by the combined attack of kidney and liver disease, dropsy and acute articular rheumatism, he suffered the torments of the damned and was almost insane with pain before the end came. The doctors and their medicines failed utterly. Although he was as good as dead when Professor Hadley's attention was called to his case, he was speedily restored to life and health by this panopath's marvelous power, though even Mr. Bess himself confesses that he does not know exactly how this miracle was performed. Another case, almost equally remarkable was that of a Mrs. J. C. Whitfield, of Norfolk. Va., who asserts that he revived the vital spark in her body when she was prepared for the grave, that at the end of a long siege of illness from a complication of diseases her body felt cold and lifeless. But she says that Professor Hadley made her heart beat again, the blood flow through her veins once more warmth return to her wasted body Naturally she looks upon her rescue and restoration to health as passing understanding. Professor Hadley saved the life of Charles W. Miller, of Columbia Furnace, Va., when threat-

ened with a deadly cancer, without the use of a knife or burning. He restored to perfect health Mrs. M. woman who had been an invalid for 25 years from complicated female troubles, many long months bedridden in hospitals, and who had been pronounced incurable and given up to die by all her physicians. Yet these are only random instances selected from among the hundreds where Professor Hadley's almost miraculous power has made the bonds of disease fall away as if they were broken chains, and re-

stored health and happiness to sufferng men and women. Naturally the announcement that a man of such wonderful ability to heal will hereafter give services and home treatment free to all who ask is most sensational and far-reaching in its effects, since it gives everyone throughout the country, the poor as well as the rich, an equal opportunity to be cured by availing themselves of this philanthropic offer made by one of the greatest scientists of the age. And it is the more remarkable and fortunate in view of the fact that there is no disease he may not cure.

When questioned in regard to his abandonment of private practice in order to devote himself to the new line of work for humanity, Prof. Hadley

"Yes, it is true; but I intend to go on curing anyone who is ill of any disease they may have, just as long as I am able. Indeed, where I cured hundreds before, I expect to cure thousands hereafter, since now neither wealth nor poverty makes any difference in my accepting patients. I have become convinced as a Christian it is my duty to help the sick and afflicted wherever they may be, whoever they are and whatever their circumstances. "But how about those at a dis-

OAK HALL. OAK HALL.

THERE'S A REASON

N 'act there are many reasons why we sell more BOYS' CLOTHING than other stores, why we are always so busy in this department. We simply state a few. We have been clothing the boys of London for the past seventeen years, and we are still clothing them, though they have grown to manhood, and others have taken their places. We have such an immense stock to choose from, you are not confined to half a dozen styles or patterns. We have spent half a century in the manufacture of clothing, every garment goes through the hands of our own experts. That is why that much abused word "guarantee" gets its full meaning here. Then our prices are right. We give the best value for the money to be found any where.
