AMERICAN SPELLING

Ottawa, Feb. 7. - "We Canadians should adhere to the English method should adhere to the English method of spelling rather than that adopted in the United States. I do not desire to take up the time of this House with trifles, but this matter, in my opinion, is no trifle. There is a growing tendency in Canada to adopt the United States method of abbreviating the spelling of words by dropping out letters. The good, old, well-established English spelling should be maintained.

Justice was unanimously adopted and the bill in question amended accord-ingly.

as Any Otheds on Continent.

Winnipeg, Man., Feb. 9.—The sal-aries of all teachers, with the excep-tion of the principals, in the public schools of Winnipeg have been volun-tarily raised. The new schedule places tarily raised. The new schedule places the schools of this city on a basis as high as that in any other city in America. The minimum for inexperienced teachers has been raised from \$450 to \$500. Regular teachers will be paid \$650 to \$800 for the first year, instead of \$575 to \$725. The maximum is to be reached at the end of the eighth year instead of the ninth as before, and it will range from \$900 to \$1,000 instead of from \$800 to \$950.

New York, Feb. 9.— A special to the World from Chicago says Henry Ward, a travelling man, of St. Louis, went to a barber shop last night to be shaved. He was in a hurry to meet a triend, and asked George Selter, one of the barbers, to make haste.

"That reminds me," said Selter, as he began stropping the razor, "of a story," which he began telling, and as he finished he leaned on the arm of the chair in which Ward was seated, hold-thair in which Ward was seated.

which he began telling, and as the lished he leaned on the arm of the chair in which Ward was seated, holding the razor with the edge up. Ward shouted with laughter, and raising his right hand in a gesture of mirth, he trought it down on the razor, cutting off his little finger.
