

BOY LEGISLATORS WILL ISSUE BONDS

Youthful Parliamentarians Pass
Legislation To Raise
Fund of \$8,500.

CASH VALUE LACKING

Canadian Press Despatch.
Toronto, Dec. 30.—Necessity of
work in Ontario was a problem
which engaged the attention of the
older boys' parliament at their con-
tinued session in the legislature here
today. Provisions for obtaining
funds took the form of "legislation"
authorizing a bond issue of \$8,500.

While the boys' parliament in pro-
posing to raise money by an issue of
bonds follows the plans of parlia-
mentary procedure, its securities will
be distinguished from other government
issues by the fact that they will have
no cash redemption value. The bonds
will be similar to those issued dur-
ing the last year, which invite the
holder to invest not in a financial
security, but in the development of
the boyhood of the province.

The marketing of the bonds is to be
handled by the boys themselves dur-
ing the period between Jan. 31 and
Feb. 10. A plan of awards has been
worked out, whereby prizes will be
given to the boys who are most suc-
cessful in disposing of the issue.
For the remainder of its business
today the parliament finally passed
its league of nations bill and consid-
erable time with committee
meetings, when the advisability of
adopting a system of group govern-
ment for the house was considered.
A resolution was also drafted favor-
ing a provincial and a national ath-
letic meet for boys.

LEGISLATURE MAY OPEN FEBRUARY 17

Three Months Will Be
Required To Transact Business
and Settle Issues.

Canadian Press Despatch.
Toronto, Dec. 30.—Unofficial in-
formation comes from the parliament
buildings that the next session of the
legislature will open on February 17,
and that a 12 weeks' session is in
prospect, judging from the amount
of legislation already on the board.
The opposition, however, may
lengthen the period by raising new
issues.

It is understood that the leader of
the Liberal opposition, W. E. N. Sin-
clair, intends to review the relations
of the Home Department in recent
years, and also raise the question of
a comprehensive investigation of the
provincial hydro-electric system.
It is also reported that the public
accounts committee will investigate
the highways department under the
former government.

KID MC'COY APPEALING MANSLAUGHTER FIND

Carries With It Penalty of
From One to Ten Years'
Imprisonment.

Special to The Advertiser.
Los Angeles, Cal., Dec. 30.—Con-
victed of manslaughter for the death
of Mrs. Theresa Mors, who was the
latest of his many loves, "Kid" McCoy
(Norman Selby) will appeal.
"This is nothing more or less than
a compromise verdict," the former
fighter's chief counsel said, com-
menting upon the action of the jury,
which was out 78 hours and took 24
ballots before reaching a decision.
Although McCoy was tried for
murder, the foreman of the jury an-
nounced:
"We, the jury, in the case of the
people versus Norman Selby, find the
defendant guilty of the charge of
manslaughter, a felony."
The verdict carries a penalty of
from one to ten years' imprisonment,
and Judge Charles S. Crail will pass
sentence on Friday.
"I guess the jury did the best they
could," was the judge's comment.
The jurors Sunday night stood 10
to 2 for manslaughter verdict, and
by noon Monday they stood 11 to 1,
but it was not until fifteen minutes
to five that all agreed.

initiative of the attorney-general for
Ontario, when the appeal from the

In other words, a somewhat un-

vincial treasurer.

LACK OF INSULIN FLOW IS CAUSE OF DIABETES

Dr. J. J. McLeod Tells Medi-
cal Men Theory Is
Confirmed.

Associated Press Despatch.
Washington, Dec. 30.—An ad-
dress by Dr. J. J. McLeod of Tor-
onto, in which he discussed the
famous insulin cure for diabetes dis-
covered by Dr. F. G. Banting and
himself, was one of the features of
today's session of the American
association for the advancement of
science.
Dr. MacLeod's paper was one of
many read at the sectional meetings
this morning. Other papers dealt
with the latest scientific observa-
tions, ranging from earthquake
causes to the effect of X-rays on
bacteria.
Confirmation of the theory that
diabetes is caused by failure of the
minute bits of tissue known as the
islets of Langerhans, in the pancreas
glands, to perform their functions
of secreting into the blood the sub-
stance known as insulin, was an-
nounced by Dr. MacLeod. In experi-
ments with fish, he said it had been
shown that the failure of the supply
of insulin was wholly responsible for
the disease, which had been an un-
determined question since the dis-
covery of the insulin treatment.

Here's an easy way to save \$2. and
yet have the best cough remedy
you ever tried.

You've probably heard of this well-
known plan of making cough syrup
at home. But have you ever used it?
When you do, you will understand
why thousands of families, the world
over, feel that they could hardly keep
house without it. It's simple and
cheap, but the way it takes hold of a
cough will quickly earn it a perma-

Into a 16-oz. bottle, pour 2 1/2 ounces
of Pinex, then add plain granulated
sugar syrup to fill up the bottle. Or,
if desired, use clarified molasses,
honey, or corn syrup instead of sugar
syrup. Either way, it tastes good,
never spoils, and gives you 16 ounces
of better cough remedy than you
could buy ready-made for \$2.20.
It is really wonderful how quickly
this home-made remedy conquers a
cough—usually in 24 hours or less.
It seems to penetrate through every
air passage, loosens a dry, hoarse or
tight cough, lifts the phlegm, heals
the membranes, and gives relief to
moderate whooping cough, croup,
tickle, hoarseness, croup, bronchitis
and bronchial asthma.
Pinex is a highly concentrated com-
pound of genuine Norway pine ex-
tract, and has been used for genera-
tions for throat and chest ailments.
