SOUTH AMERICAN TROUBLES.

MONTEVIDEO, July 12 .- News from Rio Grande do Sul says that an assault has been made upon that town from the land and sea by the revolutionary forces. This assault

was foreshadowed, as Admiral Wandelkolk had formally declared in favor of the revo

had formally declared in favor of the revo-lutionists, and appeared in front of the town of Rio Grande do Sui in the steamer Jupi-ter, with 500 armed soldiers aboard. When the news of the admiral's arrival spread in the town, the eitizens were terror-stricken, fearing an immediate attack. Many or them abandoned their homes and sought refuge in the country behind the town. Ad-miral Wandelkolk postponed the bombard-ment of the town from the sea until the ar-rival of insurgent land forces under General Saraiva. The preconcerted plan was to be-gin an assault by land and sea at the same time. Meantime the rebel admiral's force

vote or appropriation of money as above mentioned. By the withdrawal of this sub-section, the eighty Irish members to be retained in the Imperial Parliament will have rights fully equal to those given to the

THE SILVER QUESTION.

LONDON, July 12 .- The Times, discussing the silver crisis, says : "The action of India and President Cleveland merely precipitated the trouble caused by the America

cipitated the trouble caused by the American silver policy, her reckless pension scheme and the McKinley tariff law. Threats came from Denver of armed violence if they battle on the ground of political and economical argument. Both the material and moral forces are on the side of the classes in America who are resolved to support no longer the silver burden. If India had allowed the question to drift the sudden action of America must have disas-trously shaken India's credit by closing the mints. It is believed that a measure of sta-bility has been a cured which will defy the mints. It is believed that a measure of sta-bility has been s-cured which will defy the shock of any charge from America or else-where. In the meantime, India's alarm at the sale of souncil bills under sixteen pence, is not justified. The measure is experi-mental. The rate of exchange between any two countries cannot be fixed absolutely for ever

is not justified. The measure is experi-mental. The rate of exchange between any two countries cannot be fixed absolutely for ever." THE NEW COMET. SAN FRANCISCO, July 12. — Director Holden telegraphs the United Press as fol-lows from the Lick Observatory. The comet discovered at Salt Lake City, July 8, is easily visible to the naked eye in the Northwest, soon after dark. It is moving with extreme trapidity to the East and South. It was observed at the Lick Observing vatory last night, for the determination of its position was photographed, and its enserved date the sale and the sale as the direction of the sale as the direction of the sale as the direction of the sale as a bed-room and dressing-room, contains a second bed, which is always occupied by the Princess set as the sale as a bed-room and dressing-room, contains a second bed, which is always occupied by the Princess enserved to the sale and its set as the sale as a bed-room and dressing-room, contains a second bed, which is always occupied by the Princess enserved the sale and the sale as the princess by the princess distribution of the sale as the sale as the princess by the princess distribution of the sale as the distribution of the sale as the princess by the princess distribution was photographed, and its enserved the sale as the sale as the princess distribution of the sale as a sale and the sale as a sale as the princess distribution of the sale as the princess distribution of the sale as the princess distribution as the princess distribution as the prince distribution was photographed and the princess distribution as the princes distribution as the princess distribution as the pr comet discovered at Salt Lake City, July 8, is easily visible to the naked eye in the Northwest, soon after dark. It is moving with extreme rapidity to the East and South. It was observed at the Lick Obser-vatory last night, for the determination of its position was photographed, and its spectrum determined. It has almost disap-peared. The usual comet spectrum is rather brighter than is common in the blue region. Until the orbit is computed, it can-not be said how much brighter this inter-esting comet will become.
