

ENTHUSIASM FOR TAFT AT NEW ORLEANS

President Arrives Amid Roar of Guns and Cheer of Multitudes—Warm Reception Pleases Him

NEW ORLEANS, La., Oct. 30.—To the roar of guns from the warships at anchor in the harbor, the clanging of bells and the cheering of nearly a hundred thousand enthusiastic citizens, who lined the banks of the Mississippi, President Taft arrived at New Orleans this morning, concluding his long trip down the river from Zelous. Standing on the bridge of the trim little Cleopatra he bowed and smiled at the enthusiasm of the throngs.

President Taft and his party were quickly placed in carriages and the big parade up Canal street began. The principal streets of the city were traversed, and when the St. Charles hotel, where the presidential party will stay for two days, was reached, the president left the carriage and reviewed the procession from the balcony. Police arrangements seemed flawless. There was a uniformed patrolman in every six feet on the line of march, and as fast as the presidential party passed one point relays of police were hurried along to serve at some other.

Immediately after the parade a reception of officials by the president was held. Mentioning the Waterbury convention, which the president will address, had been called to order.

CONTEST UNEXCITING FOR CLEVELAND MAYOR

Popular Tom Johnson's Ambitions for a Fifth Term Are Opposed

CLEVELAND, O., Oct. 30.—Less noise, fewer issues and more apathy characterize the municipal campaign that will draw to a close tonight than any political campaign here in recent years. Mayor Tom L. Johnson is the Democratic candidate to succeed himself for a fifth year in the post. He is opposed by County Recorder Herman O. Baehr, the Republican candidate. There is also a Socialist candidate.

Mayor Johnson insisted that the street railway question is settled. Mr. Baehr maintains that it is not. The mayor ignores the car question and talks fair taxation. Mr. Baehr attacks Mayor Johnson's public record. Practically every political street corner situation which has been an issue for nine years is in the hands of Arbitrator Federal Judge R. W. Taylor, who is officially binding the city and the car company to things they have already agreed to. There will be a three cent fare to begin with.

THUNDER CRITICISMS RUMORED PROPOSAL TO SEND BRITISH CABINET FAILURES TO COLONIAL POSTS

LONDON, Eng., Oct. 30.—The Times, dealing with cabinet rumors about important imperial appointments which must shortly be made, says:—

"It is ministers whose elimination from office at home for obvious reasons is deemed desirable that are named as likeliest candidates for governor-generalships of dominions or in India. We cannot pretend to say whether rumors about the subject of these appointments are well-founded or not, but they are general enough to demand a strong, firm protest against a nomination which would do deep injury to the larger interests of the Empire."

The Times, however, concludes: "The government must feel that to impose upon India, or rather upon the Dominion, failures in the cabinet would be to do a grievous wrong to the Empire and to our race."

Manitoba Apples in London

LONDON, Oct. 30.—The province of Manitoba is appearing before Londoners in an unexpected way, namely, as an apple grower. Samples of perfect apples of several varieties grown by a man named Stephenson, at Netley, are now on exhibition in the high commissioner's office, and are attracting much attention amongst those interested in prairie lands, especially with a view to the commercial prospects of the enterprise.

NEW ADDITION TO THE EMPRESS HOTEL

Plans Have Been Prepared and Construction Starts on Approval of Authorities

Plans have been prepared for the new additions to the Empress hotel, and await the approval of the municipal authorities. They provide for 75 more sleeping apartments. Contrary to the general opinion that the addition would be constructed on the foundations already laid at the south side of the building, the plans provide for it to be erected on top of the present kitchen at the northeast end of the building. Whether this alteration in the first suggestion made regarding the addition will meet with approval of the C. P. R. authorities is not known. The C. P. R. architect, J. Painter, who visited the city a couple of weeks ago, is responsible for the plans.

VICTORIA LEADS IN HORTICULTURE

Liable to Be an Overproduction of Chrysanthemums Owing to Vancouver's Competition

"Victoria is the flower city of the West. That's not toying with the truth over so little because it's a fact that can be proved by figures, which do not lie, that at least half and probably a greater percentage of the blooms, eagerly bought in Vancouver, are raised here, and as fast as the president's party passed one point relays of police were hurried along to serve at some other."

E. A. Wallace, who has four acres under cultivation on land owned by the government, says that he has been stopped as he walked along Government street this morning with his arm full of ready-made chrysanthemums. He says that he has been in the above statement is what he unloaded in the course of a discussion on the flowers of this district.

"What's going to happen this winter in our trade I can't say," he remarked. "In Vancouver some capitalists have been buying up the land and doing their best to compete with Victorians in the market of the Middle West. I don't know what preparations have been made but it is likely that there will be an over-production of the chrysanthemum, because there have been twice as many growers here as in Vancouver. Of course, we have the best of it under any circumstances because our climate and other conditions make it possible for us to develop a much finer bloom than can be produced anywhere on the lower mainland."

Carroll, Mr. Wallace said, would fine a ready market. There would be quite a few this winter. More than last year. But there would be no difficulty in placing them.

Then the local enthusiast made the statement attributed to him as to Victoria's floral contributions to the exposition. "We don't need to worry," he said. "It isn't necessary for us to reach beyond the city limits. We have the best of it under any circumstances because our climate and other conditions make it possible for us to develop a much finer bloom than can be produced anywhere on the lower mainland."

Immigrant Train Wrecked

HUNTINGTON, Ind., Oct. 30.—A westbound immigrant train on the Chicago and Erie railway was wrecked at Topeka, near Decatur, early today. A relief train has gone to the scene. The westbound immigrant train collided with a freight train.

The auditorium of the theatre was saved from the flames but badly damaged by water. Three firemen were hurt and are in a serious condition at the hospital.

Nicaragua's Revolution

WASHINGTON, Oct. 30.—The report that the revolutionary administration under General Estrada contemplates an early proclamation of the independence of the Atlantic coast states of Nicaragua as a republic, seems to have a basis in fact. It is said that this proposed step on the part of Estrada is backed by almost universal public sentiment in these states. The State department has received this news in an official dispatch from Nicaragua and the officials would not be surprised at the issue of a declaration of independence shortly.

Money Comes Freely

CALGARY, Oct. 30.—Calgary residents responded to the call from the Young Men's Christian Association, and at the house of the campaign money was raised. The success of the campaign is due to the fact that money is plentiful here. Farmers are using the money from their crops to pay their taxes and the increase in the value of the land is a great help.

GREEK MURDER IS CAUSE OF THIS FIGHT

Historic Salamis Scene of Brief and Uneventful Fight Between Government and Rebel Forces

ATHENS, Oct. 30.—Almost 2,000 years after the day when Themistocles gained a memorable victory over the Persians, Salamis today witnessed a naval battle. The correspondent of the Associated Press has just returned from Scaramanga, where he witnessed the fighting. The fighting this afternoon between the government and the rebels was a naval battle. The government forces, which were equipped with modern torpedoes, met the rebel forces, which were equipped with old-fashioned sailing ships. The fighting was brief and uneventful. The government forces emerged victorious, but the rebels were not completely defeated. The fighting was a reminder of the historic battle of Salamis, which took place in 480 B.C.
