

EVERYBODY CAN NOW AFFORD A TORONTO DAILY.

THE TORONTO WORLD, A FEARLESS AND INDEPENDENT ONE CENT MORNING PAPER.

TRY IT FOR A MONTH.

THE WORLD, 18 King Street East, Toronto.

TUESDAY MORNING, AUGUST 22, 1882.

Persons leaving town for the season, and summer travelers, can have their works mailed to them for 25 cents per month, the address being changed as often as desired.

Property, and politicians of the "practical" kind are forever devising schemes to make or keep it "straight."

Complaints have been made to The World of late by subscribers, to the effect that they were not getting their papers regularly.

LONG COMMUNICATIONS. The World is a small paper, but it tries to give something of everything in readable shape.

IS IT WORTH THE COST? In the impending local elections it is evident that a desperate effort is to be made on the part of the one political party to retain, and on the other to capture, what is known as the "Catholic vote."

Mr. Blair fell off his horse and struck his head upon a stone. He has never fairly recovered from the effects of the fall, in fact his manner has been so peculiar since then, that sympathy rather than contempt is manifested for him.

Mr. Blair, although said to be a gentleman of intelligence and culture, and possessing a university degree that should have been a guarantee of better things, appears to be one of those weak-minded persons who worship success and are ready to stoop to anything that would give promise of securing it.

There are, we presume, sensible men in the ranks of both parties, and we would ask them to sit calmly down and put to themselves these questions: Is not this a game fraught with danger to our country, and in the long run worth the stirring up of bitter hatred between religion and religion? Is it worth while, in order that the ins may go out and the out come in, to pander to a spirit of selfishness and political greed, and to take together the still glowing embers of religious discord which should long ago have been allowed to decay into ashes? We saw how these feelings of bitterness and jealousy received new strength from the bill made for the Catholic vote, and we can see but the Catholic vote, and we can see but the Catholic vote, and we can see but the Catholic vote.

Why Catholics should be expected to vote in a body is another question without regard to individual opinion or conviction, we have never been able to make out. Is their religion in any danger? The question is too absurd to require an answer. Does anybody propose to deprive them of their franchise, to take away their liberty of speech or action, or to deny them any one of the rights enjoyed by every citizen of the land? Is not the whole educational system of the province true to them in common with every other class in the community, and have they not in addition been aided in establishing a plan of separate education where by their children might be taught and trained as they themselves think proper? In short, is there any grievance whatever which justifies the existence of a "Catholic vote"? That it does exist requires no proof on our part. So-called "leaders" act and talk as if it were their own personal class order? At present these farmers are in the habit of selling to the country stores where it is converted into the nauseous mixture exported as Canadian tallow butter, and which is often unclean and often rancid.

Another lamentable instance of the effects of the monopoly system is to be found in the present condition of the laboring class in the Pennsylvania mining districts.

OUR OPINION. Collingwood Enterprise: We would like to have the opinion of The Toronto World, Mr. Goldwin Smith, and the teachers, as to the propriety of the high school educators editing and publishing a rabid party organ in the town in which they teach—as is the case in Collingwood.

MONOPOLY VS. LABOR. Another lamentable instance of the effects of the monopoly system is to be found in the present condition of the laboring class in the Pennsylvania mining districts.

THE MIDLAND COMBINATION JUSTIFIED. An occasional whisper is heard of how things would be if we had competition, and didn't know exactly what it meant.

TWO VIEWS ON INDEPENDENCE. From the London Advertiser: "If independence ever becomes popular, Mr. Chaplain can join the movement consistently, and say, I have always favored it."

AMONG THE CATTLE KING. The ranches of "Cattle King" generally, all making up a frontage of 18 miles, and including a number of very productive meadows, are situated on the south side of the Arkansas, and are all under fence.

THE LOSS OF A SON. A woman writes to the Toronto World: "I have a son who is a student at the University of Toronto, and he has just been elected to the position of a member of the Senate of the University."
