[From Yesterday's Telegram..]

There are only about five papers in Canada that dare open their circulation books to a committee of advertisers, viz.: The Montreal Star and Witness, The Toronto World, The Hamilton Herald, and The Telegram. All other papers which claim large circulations, gladly show their gross average, but never think of giving the details of city and country circulations so that the advertisers may see where every copy goes.

The books of the City Treasurer's department show that Meyerfey handled from \$10,000 to \$12,000 of the city's money every year.

It is therefore singular that those afflicted It is therefore singular that those amicted with this fearful disease should not make it the object of their lives to rid themselves of it.
