A MURKIER SKEIN THE ISLAND OF MARSHALLS

Enormous Damage Occasioned and Immense Loss of Life Reported—The London Compartment Outrages—Deeming to Die on Monday Next—Lady Aberdeen on England and America.

LONDON, May 19.—Advice from Manuscripts state a hurricane approached the island of Marshall, causing enormous damage to shipping, and a majority of the population of the island of Marshall, the capital, was devastated. The houses were blown down, and the trees were uprooted and that part of the town was about wiped out of existence.

THE LOSS OF LIFE WAS APPALING

A large number of lives were caught in the falling houses and crushed to death, while others lost their lives by flying debris which they were attempting to seek places of safety.

THE ROLES OF THE GALE WAS DEAFENING

The force of the gale was deafening, and people rushed to and fro in great confusion with no idea of what they were doing. Rain fell in torrents. The thunder crashed with terrific force, and the flashes of lightning were blinding. Never before in the history of the island has such a war of the elements been known, and indeed there was such widespread fear among the inhabitants.

THE EXACT NUMBER OF DEAD IS NOT KNOWN

Every effort is being made by the authorities to alleviate the suffering that has been caused by the disaster. The Governor has issued orders for military tents to be distributed to shelter the homeless, and food is being sent to the survivors.

FAREWELL TO FREE TRADE

LORD SALISBURY'S REMARKABLE SPEECH AT HASTINGS

England, in Order to Keep Afloat With the Times, Must Adopt a Tariff Which Will Exclude the Hostile Nations From Her Markets—Prospect of the Free Trade Advocates Not Bright.

HASTINGS, Eng., May 19.—Lord Salisbury, in a speech here yesterday, said a grave matter, in which the prosperity of the country was involved, was the question of free trade. He said: "England only maintains the position which she occupies by the vast industries existing here, but a danger is growing up. Fifty years ago, everybody believed free trade had conquered the world, and prophesied that every nation would follow the example of England. The results, however, are not yet known."

"Despite the prophecies of the free trade advocates, foreign nations are not so ready to open their markets to our goods as we are to theirs. We are in an age of war tariffs. An important part of that, while nations are doing everything to obtain each other's markets, is the fact that the nations of the world are not so anxious about the welfare of Great Britain, as Great Britain has been about the welfare of the world."

"Now, as to the attitude which we have taken. Regarding it to be loyal to the glories and sacred doctrines of free trade to impose duties on any body for the sake of anything we get thereby may be noble, but it is not business-like."

"On these terms you will do get nothing. If you intend to hold your own in the conflict of tariffs you must be prepared to refuse nations who injure you access to your markets. We cannot do this unless we have a tariff which will be a barrier to the nations of the world, and which will be a barrier to the nations of the world."

"The tariff which we have proposed is a tariff which will be a barrier to the nations of the world, and which will be a barrier to the nations of the world."

"The tariff which we have proposed is a tariff which will be a barrier to the nations of the world, and which will be a barrier to the nations of the world."

CHIT-CHAT OF THE CAPITAL

The House Still Wrestling With the Criminal Code—Another Divorce Granted.

OTTAWA, May 19.—This has been a dull quiet day in the House, the criminal code and the divorce bill being the only subjects under consideration in committee of the whole all the afternoon and evening.

The committee rose at 8:30 and reported progress and then went into supply, taking up again the vote on Lapsaris' motion, which was talked off as usual until 11 o'clock, when it was passed and the next day, that for River du Loup postoffice, appeared.

About midnight Mr. McMillan of Huron rose to speak, but was fairly howled down and for nearly half an hour pandemonium reigned supreme. Then there was a little lull and the talking and shouting went on, but about 1 o'clock the trouble broke out again and the riot and racket still goes on at 1:30, with every probability of the waste of time going on all daylight without any business being done.

RECIROCITY IN WRECKAGE

A Vexatious Message Respecting Salvage on the Lakes to Be Voted.

WASHINGTON, May 19.—Steps are likely to be taken at an early day to bring to an end a long existing evil by which an American vessel on the lakes is not allowed to save life or cargo from a wreck occurring in Canadian waters, and a Canadian vessel is denied the privilege of doing similar work in American waters.

Congressman Chapman to-day received a letter from J. T. Whiting, of Detroit, Michigan, calling attention to the recent Act of the Canadian Parliament establishing reciprocity of wrecking privileges in this branch of reciprocity. Mr. Whiting argues that steps be taken here to meet Canadian law, and secure mutual rights of salvage in the lakes.

The U.S. Act directs the President to issue a proclamation establishing reciprocity in wrecking as soon as Canada is ready to take a similar step. As Canada has now done her part it only remains for President Harrison to issue his proclamation, which will be done at once.

"MRS. CHAIRMAN" IT IS TO BE

DECISION ON HOW TO ADDRESS A LADY CHAIRMAN.

Loyalty to the Front—School Celebrations and American State Commissioners—A Centennial and the Board's Efforts to Escape an Economical Revolution—Other Items of Interest.

A hearty chorus of applause greeted School Trustee R. U. Macpherson when he arrived late and modestly endeavoring to slip into his seat without notice. But he was quickly spotted, and the reception given him showed how cordial is the feeling of his fellow-trustees towards him in his venture upon the seat of matrimony.

Despite the rainy night, there was a fair attendance of trustees. There were present: Chairman W. D. Macpherson, Messrs. Macdonald and Stone-Galloway, Messrs. Macpherson, Kerr, Lee, Hamby, Reid, Hodson, Jamieson, Clarke, Douglas, Fraser, Robertson, Haggart, Macpherson, and last, but by no means least, R. U. Macpherson.

The first item on the program was announced by Mr. Baird, who reported on the progress of a program of studies, until the chairman applied his veto. "That will do for reminding Mr. Baird that he is not a member of the board," he said, and he was getting the grounds near the back of the school.

Mr. Baird's speech was "made by him young," in his own peculiar phrase. He was speaking of the school, and the school was the case in hand.

The patriotic came next. The Finance Committee called attention to a number of accounts were passed, but for a subscription to Bradstreet's Mercantile Agency was followed.

The School Management Committee's report the chief incident was the sale of the school building. Mr. Baird explained that he had merely asked whether the \$800 was to be a loan or a grant, and that he had not intended to make a caustic reference to the four days' solid enjoyment of the following classes, which were held at the Sites and Buildings Committee's report.
