Worth Its Price "We have cheaper teas, madam, but I think you'll find 'KING COLE' is worth its price." So said a wise grocer recently to a questioning customer. He was there not merely to serve her, but to serve her well. He might please her purse with the cheaper article but her final judgment of his service would be on the quality of the tea supplied. He wanted a satisfied customer. This was one of the many merchants using "KING COLE TEA" in their own homes, and so he could say with sincerity: "It is worth the price." "You'll Like the Flavor."

Fertilizer!

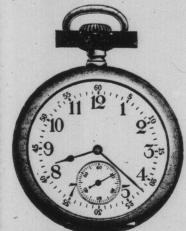

A Few Facts

Our Fertilizers enrich the earth and those who till it. Have a large crop each year and when prices are high you are prepared for it.

In applying fertilizers, it is more economical to be liberal than to stint. The larger returns make the cost of the extra fertilizer look small, and increase the profits per acre---after deducting the cost of fertilizer. Don't Delay! Our stock is moving fast.
