EAST BUFFALO.

East Buffalo, Nov. 2.—Cattle.—To-day the arrivals of sale cattle were about 150 loads, and about 30 loads of through stock. Markets ruled fairly active for best grades of shippers and export cattle at fully 15 to 20c. advance; eastern reports favorable, and there were quite a number of loads taken by regular New York buyers while exporters picked up all stock available for their purposes, which accounts for better trade; good medium grades and choice fat butchers' stock also sold at a shade better prices, but for common grades and rough steers there was no better trade; about all offerings sold, and market closed steady; stockers were in plentiful supply, and unchanged at last week's prices; few light ones selling down to \$2.25 to \$2.35, while good to choice brought \$2.75 to \$3.40, as to quality: good feeders, \$2.50 to \$3.75; bulls steady, at \$2.55 to \$3 for fair to good fat, and \$2 to \$2.25 for stockers; milch cows were about steady at \$30 to \$45; a few very fancy, \$50 per head: Canada stockers, \$74 to 954 lbs. average, sold at \$3.35 to \$3.60. Sheep and lambs—Receipts of sale sheep were about 65 loads; market ruled without any decided change in prices; there were more buyers present, and in some cases a trifle better prices possibly obtained from countrymen, but in a general way there was no advance, and regular New York buyers held off; sales of fair to good sheep were at \$2.50 to \$3.25; choice, \$3.40 to \$3.60; western lambs, \$3.75 to \$4.25; choice, \$4.50 to \$4.75; Canada lambs, \$4.75 to \$5, latter for choice; some very good at \$4.90, but the bulk were at \$4.75 to \$4.85.

PRODUCE.

The local market has been confined almost entirely to the barley trade during the week. Flour and wheat have been left almost without buyers, partly in consequence of the dullness outside, which, after a slight rally, has been renewed. How markets are likely to move nobody feels much inclined to attempt to prophesy; but it is clear that the close of navigation is drawing near with very little of anything worked off anywhere; and furthermore, with Liverpool wheat stocks increased 1,000,000 bushels since Sept. 1. Stocks here again increased last week, and stood on Monday morning as follows: Flour 375 bbls.; fall wheat, 159,154 bu.; spring wheat, 54,140 bu.; mixed wheat, 1,294 bu.; oats, nil; barley, 269,129 bu.; peas, 29,354 bu.; rye, nil. There is no New York report of grain in sight issued as we write; but that of Chicago shows a large increase in wheat.

Flour.—Increasingly dull at declining prices. Superior extra has been offered down to \$3.90 and not taken; extra sold on Monday at equal to \$3.85, but at close it could have been bought at \$3.80 had there been any buyers.

BRAN.—Inactive and nominal at about \$10.50 to \$11.

OATMEAL.—Cars have been offered down to \$3.75, but choice held for rather more than this; small lots of fine usually sold at \$4.25 to \$4.50.

WHEAT.—Has been neglected by both shippers and millers, and values have been tending downwards. No. 2 fall, lying outside, sold last week at equal to 86c. here, but at the close 85c. seemed to be the best price obtainable, and this not always to be had for asking; No. 3 worth about 82 to 83c.; spring scarce all through, with No. 2 worth about 87 to 88c. at the close had there been any offered. On street from 80 to 86c. has been paid for fall and spring, and 75 to 76c. for goose, with receipts small.

OATS.—Rather quiet and easy. Old changed hands last week at 34½ and 35c. on track; and new at 32½ and 33c. last week; at 32c. on Monday, and at close 32½c. would probably have been paid. On street new closed at 34½c.

BARLEY.—Seems to have been fully active, with the higher grades steady. No. 1 sold last week and on Monday at 84c., and No. 2 at the same time from 75 to 76c. f.o.c. Extra No. 3 changed hands in considerable quantities at 67 to 68c., and on Monday brought up to 69c. No. 3 sold at 57 to 58c. last week and on Monday. At the close No. 1 was wanted at 84c., and No. 2 at 75c. and No. 3 sold at 58c. f.o.c. Street prices from 60 to 86c., with receipts decreasing.

PEAS.—One sale of a car on track is reported at 61c., which price would probably have been repeated. Street prices 60 to 61c.

RYE.—Has sold on street at 61c.

HAY.—Pressed steady and in fair demand at \$12.50 to \$13. Market receipts have been small and insufficient, and prices closed higher at \$13 to \$17.

STRAW.—Very little coming forward, and that little readily taken, from \$7 to \$10 being paid for loose, and \$14 to \$15 for sheaf at the close.

POTATOES.—Have been rather unsettled, with sales of cars at 45 and 55c. on track, but offerings large at close. On street from 65 to 70c. per bag has been paid.

APPLES.—Much as before; no car lots moving but on street a good many sold at 75c. to \$1 for windfalls, and \$1.25 to \$1.75 for choice.

POULTRY.—Box lots have begun to offer, and have sold at 25 to 40c. per pair for fowl; at 45 to 55c. for ducks; at 6 to 7c. per lb. for geese, and 9 to 10c. per lb. for turkeys.

THE HORSE MARKET.

TORONTO.

There is only a local demand this week; there being no foreign buyers in the market. There is a call for a few well-bred saddle horses, 15 to 16 hands, also carriage pairs, 15.3 to 16½ hands.

Thirty-five horses were sold at Grand's on Tuesday, and in most cases very satisfactory prices were realized. General purpose horses, 5 to 8 years, 1,000 to 1,200 lbs., brought from \$85 to \$130; a few heavy draughts were sold, 1,300 to 1,500 lbs., realizing from \$120 to \$180 each; light single drivers were not much in demand.

Mr. W. D. Grand reports the following private sales: Five heavy draught geldings, 1,400 lbs., \$875, average of \$175 each; Canadian draught stallion, 3 years, 1,500 lbs., \$475; Canadian coach stallion, 1 year, \$200, shipped to Alma Bros., Norwich, Conn.; heavy weight hunter, 4 years, 16½ hands, by Reveller, \$305; bay mare, 5 years, 16 hands, by Rifleman, \$215; pair of black geldings (for horse) 15.3 hands, \$300; pair single drivers, 5 years, 15.1 hands, \$220; heavy draught mare, 1,400 lbs., \$165.

MONTREAL.

There has been a great improvement in the horse market during the past week, there having been a good demand for heavy workers and good drivers. At the Horse Exchange the following sales were made: One pair heavy workers at \$350; one bay mare at \$180; one bay horse at \$150; one grey horse at \$80, and one pair blacks at \$235. Mr. Kimball, of the Horse Exchange, received by the SS. Norwegian thirty-five stallions and eleven ponies, which were all consigned to the west. He received by the SS. Lake Superior six Clydesdale stallions, which go to Brampton.

BOSTON.

There is no important changes in the market. The arrivals are quite liberal, fully equal to the demand. The enquiry has not improved, and the general range in prices is \$150 to \$300 per head. These rates, of course, do not include anything fancy, but good business and family horses. Ten head of drivers and business horses arrived the past week from Canada by Mr. Ford, weighing from 1,000 to 1,200 lbs. each, at \$160 to \$175 per head; 19 head of Philadelphia horses by D. M. Taylor, a general assortment, including coaches, trotters, saddle horses, and two very nice spans for family use, well-matched and good steppers, weighing from 950 to 1,150 lbs., at \$300 to \$450 the pair; coaches at \$175 to \$225, and trotters at \$150 to \$300 each.

CHICAGO.

It is now too late in the season for much stir in the horse market. A few useful horses are being sold at retail. The arrivals for the week have been nearly equalled by the shipments forward in first hands. It costs some money to keep a horse through the winter, and this point is being fully taken into account by all parties when they propose to buy a horse or two under present conditions.

HIDES, SKINS AND WOOL.

HIDES.—No further advance is given, but all offered readily taken when of good quality, as they generally are. Cured still in good demand and firm, with sales of car lots at 9½c.

CALFSKINS.—Scarce, inactive, and nominally unchanged.

SHEEPSKINS.—Prices have risen 5c., or to 80c. for the best green, with combing-lots usually going at 60 to 70c., and a good demand for all offered.

WOOL.—Fleece seems to have been almost finished. Any little offered has been readily taken at rising prices; selected has brought 21c., and mixed lots would have been taken at 18 to 19c., with 20c. paid for farmers' lots. Super scarce and firmer, with sales at 22½ to 23c., and more wanted at these figures. Extra inactive and unchanged in value.

TALLOW.—Abundant and slow of sale at 6c. for rendered and 3c. for rough, with round lots offered at 6½c., but no sales.
