

codeia by a special process, and this should be remembered by the physician when prescribing codeia. In treating a case of sciatica, one tablet was followed by a diminution of pain, and after the third tablet, given in half-hour intervals, the pain entirely disappeared. The usual dose is one tablet every two, three or four hours, according to indication.

A Remedy That Will Live.—

Such a remedy as Royal Sanmetto, because, as is claimed for it, it is honest and square. As an example of the esteem in which it is held, the words of Dr. Andrew James Park, of Chicago, here quoted, will

illustrate. Dr. Park writes: "I have been prescribing Royal Sanmetto for suffering mortality for years. Indeed, ever since its entrance upon its high career and since it has vindicated its right to recognition, and to be held and regarded as the unrivalled remedy for bladder aggravations. This formula has won the confidence of physicians everywhere, and the remedy the gratitude of suffering thousands. Sanmetto without any exaggeration is Royal—the Prince Imperial—whose fame is destined to live as long as it continues honest and square, and in the way that gave it its high reputation."

THE TREATMENT OF NASAL CATARRH

BY

JOHN A. HALE, M.D.

Alto Pass, Ill.

FOR years I used various remedies and met with varying success, until tiring of one remedy after another I relied solely on Potassium Permanganate in weak solutions as a nasal douche, but a review of some points in this paper will show why I always sought for something else. Glyco-Thymoline has usurped the place of the permanganate solution in my armamentarium, and after sufficient trial, established faith, implicit faith, in its specific therapeutics for this condition. A knowledge of its essential constituents and their therapeutic action only tends to strengthen a belief in its specificity. Caution is necessary in the selection and use of remedies, but a fair trial has proven no untoward inconvenience emanating from the use of this remedy. Meanwhile the therapeutic results are gratifying and the good effect of Glyco-Thymoline can be easily verified by a trial, when conclusions will be the result of practical truths only.
