

INGLUVIN

For Physicians' Prescription Only

The classical and well tried Specific for Vomiting in Pregnancy. Superior to Pepsin—given in the same manner and combinations as Pepsin. Dose, 10 to 20 grains.

FROM THE VENTRICULUS CALLOSUS GALLINACEUS.

IN NERVOUS EXHAUSTION FEED THE NERVOUS SYSTEM

WM. R. WARNER & CO.,

SOLUBLE,
SUGAR-COATED

PHOSPHORUS PILLS.

PHOSPHORUS—"It exists mainly in the nervous centres in the form of a peculiar compound with fatty matter which has been named 'protagon' just as iron is united with hæmatin in the blood. It actually forms more than one per cent. of the human brain."

Phosphorus is stimulating nerve tonic, and in suitable cases a true tissue food in every issue of the word.

Specify **WARNER & CO'S.** for full therapeutic effect.

Pil: Phosphori, 1-100 gr., 1-50 or., 1-25 gr. (Wm. R. Warner & Co.)

DOSE.—One pill, two or three times a day, at meals.

THERAPEUTICS.—When deemed expedient to prescribe phosphorus alone, these pills will constitute a convenient and safe method of administering it.

Pil: Phosphori Co. (Wm. R. Warner & Co.)

℞ Phosphori, 1-100 gr.; Ext. Nucis Vomicae, $\frac{1}{4}$ gr.

DOSE.—One or two pills, to be taken three times a day, after meals.

THERAPEUTICS.—As a nerve tonic and stimulant this form of pill is well adapted for such nervous disorders as are associated with impaired nutrition and spinal debility, increasing the appetite and stimulating the digestion.

Pil: Phosphori cum Nuc. Vom. (Wm. R. Warner & Co.)

℞ Phosphori, 1-50 gr.; Ext. Nucis Vomicae, $\frac{1}{4}$ gr.

DOSE.—One or two pills, three times a day, at meals.

THERAPEUTICS.—This pill is specially applicable in **Atonic Dyspepsia**, depression, and in exhaustion from overwork, or fatigue of the mind. **Phosphorus** and **Nux Vomica** are **Sexual Stimulants**, but their use requires circumspection as to the dose which should be given. As a general rule they should not be continued for more than two or three weeks at a time, one or two pills being taken three times a day.

Pil: Phosphori cum Ferri et Nuc. Vom. (Wm. R. Warner & Co.)

Phosphori, 1-100 gr.; Ferri Carb. 1 gr.; Ext. Nucis Vomicae, $\frac{1}{4}$ gr.

DOSE.—One or two pills may be taken two or three times a day, at meals.

THERAPEUTICS.—This pill is applicable to conditions referred to in the previous paragraphs, as well as to anæmic conditions generally, to sexual weakness, neuralgia in dissipated patients, etc.

Pil: Phosphori cum Ferra et Quinia. (Wm. R. Warner & Co.)

℞ Phosphori, 1-100 gr.; Ferri Carb. 1 gr.; Quiniæ Sulph., 1 gr.

DOSE.—One pill, to be taken three times a day, at meals.

THERAPEUTICS.—Phosphorus increases the tonic action of the iron and quinine, in addition to its specific action on the nervous system. In general debility, cerebral anæmia, and spinal irritation, this combination is especially indicated.

Pil: Phosphori cum Ferro et Quinia et Nuc. Vom. (Wm. R. Warner & Co.)

℞ Phosphori, 1-100 gr.; Ferri Carb., 1 gr.; Ext. Nuc. Vom., $\frac{1}{4}$ gr.; Quin. Sulph., 1 gr.

DOSE.—One pill, to be taken three times a day, at meals.

THERAPEUTICS.—The therapeutic action of this combination of tonics, augmented by the specific effect of phosphorus on the nervous system, may readily be appreciated.

Pil: Phosphori cum Quinia et Digital. Co. (Wm. R. Warner & Co.)

℞ Phosph., 1-50 gr.; Quin. Sulph., $\frac{1}{4}$ gr.; Pulv. Digitalis, $\frac{1}{4}$ gr.; Pulv. Opii, $\frac{1}{4}$ gr.; Pulv. Ipecac., $\frac{1}{4}$ gr.

DOSE.—One or two pills may be taken three or four times daily, at meals.

THERAPEUTICS.—This combination may be prescribed in cases of consumption, accompanied daily with periodical febrile symptoms, quinine and digitalis exerting a specific action in reducing animal heat. Patients should, however, be cautioned as to the use of digitalis, except under the advice of a physician.

Pil: Phosphori cum Digital. Co. (Wm. R. Warner & Co.)

℞ Phosphori 1-50 gr.; Pulv. Digitalis, 1 gr.; Ext. Hyoscyami, 1 gr.

DOSE.—One pill may be taken three or four times in twenty-four hours.

THERAPEUTICS.—The effect of digitalis as a cardiac tonic renders it particularly applicable, in combination with phosphorus, in cases of overwork attended with derangement of the heart's action. In excessive irritability of the nervous system, palpitation of the heart, valvular disease, aneurism, etc., it may be employed beneficially, while the diuretic action of digitalis renders it applicable to various forms of dropsy. The same caution in regard to the use of digitalis may be repeated here.
