OILS, PAINTS AND GLASS.—The further anticipated advance in turpentine has materialized, and very substantially, quotations having been jumped up three cents a gallon since last writing. Linseed oil has also been advanced a full cent, and castor oil quotations are higher at 8 to 9c. A leading house has declined 7½c. per lb. to clear out their total stock of castor oil. Glass is firm at the late advance, and it is not improbable that quotations will go up another 5c. upon the close of navigation. We quote :— Turpentine, one to four brls., 44c.; five to nine brls., 43c., net 30 days. Linseed oil, raw, one to four brls., 46c.; five to nine brls., 45c. ; boiled, one to four barrels, 49c.; five to nine barrels. 48c., net 30 days; olive oil, machinery, 90c.; Nfd. cod, 35 to 37c. per gal.; Gaspe oil, 35 to 37c. per gal.; steam refined seal, 45 to 46c. per gal. in small lots. ## Ætna Life's Profits [CHAPTER 5] MEASURED BY THOSE OF THE New York Life

The next largest Life Insurance Company after the Equitable and the Mutual Life) is the New York Life Insurance Company. Having already used the Cash Profits of the Equitable and Mutual as a rule, or gauge, or measure, of what the ÆTNA LIFE is doing for its insured, we now use the Cash Profits of the New York Life for a similar purpose, in the following statement :--

These policies are held by a prominent wholesale merchant in Ohio, whose name will be given if requested. It will be observed that the  $\pounds$ TNA LIFE has saved to its patron in the fifteen years, \$1,197.26. Crediting interest upon the yearly savings, the amount is increased to \$1,806.79.

Each company pays its final Cash Dividend on its Policy in 1896, and it is altogether likely that the difference in favor of being in the ÆTNA will be about 1,900, or 19.00 extra profit on every 100 paid in. Further evidence of a similar sort will be given in next announcement.
