

production, operation or maintenance of equipment or for the processing of nuclear material or material as may be jointly determined by the Parties, but excluding data available to the public, for example in published books and periodicals, or that which has been made available internationally without restrictions upon its further dissemination.

ARTICLE II

The co-operation contemplated under this Agreement relates to the use, development and application of nuclear energy for peaceful purposes and may include, inter alia:

- (a) the supply of information, which includes technology, related to:
 - (i) research and development,
 - (ii) health, nuclear safety, emergency planning and environmental protection,
 - (iii) equipment (including the supply of designs, drawings and specifications),
 - (iv) uses of nuclear material, material and equipment (including manufacturing processes and specifications), and
 - (v) transfer of patent and other proprietary rights;
- (b) the supply of nuclear material, material, and equipment;
- (c) the implementation of projects for research and development as well as for design and application of nuclear technology for use in such fields as agriculture, industry, medicine and the generation of electricity;
- (d) industrial co-operation between persons in Switzerland and in Canada ;
- (e) technical training and related access to and use of equipment;
- (f) the rendering of technical assistance and services, including exchanges of experts and specialists; and
- (g) the exploration for and development of uranium resources.
