Notes:

1/ Not included in the data are fees of independent contractors retained by the Bank Group departments under their contractual services budgets, and local consultants hired by Resident Missions.

2/ Column (2) compared to Column (1) indicates that many consultants have multiple appointments.

3/ Number of days paid in Column (3) does not necessarily correspond to the number of appointments in Column (1); rather, it indicates number of days paid during the fiscal year. Some appointments overlap from one fiscal year to another; and appointments made in one fiscal year may not be paid until the next fiscal year.
