

EXCHANGE ECHOES.

Northwestern Lumberman.

The action of congress on matters which will have a bearing on the Canadian export duty on logs will probably soon be known. Some of the wheel horses of both houses have the question under consideration, and lumbermen are making their way to Washington, where they will get in their work as lobbyists. Without doubt the great majority of manufacturers would be glad to see Canadian lumber shut out of the United States entirely; particularly would this please southern and Pacific coast operators. The fact is, the saw mill capacity of this country is enormous, there is plenty of timber to meet that capacity, and the saw mill men think that it belongs to them to supply the lumber the country needs.

The *Northwestern Lumberman* is responsible for the following, which it calls "Johnny's Composition": "My Pa he's got a saw mill. A buz saw nint got no mouth, but it gets thar jes the same. Teeth grows all over him, like hairs on a dern catapiller. I hates them things. If I had ter waller round like that I wouldn't try ter be a butterfly. The bes way to feel of a buz saw is poke it with a board. Pa's hired man got three fingers. He says thats nuff to drink by. When I'm big I'm goan have wiskers and chaw tobacco like Pa. Pa's got a nigger in his mill, I spose cos theys a wood pile there. If I says 'dout monkey with the buz saw' they throws me in the saw dust. That's a chestnut. Lumber grows on live rolls. I guess them's fer feed. Pa says trees has bark, but saw mill dogs dont."

Timberman.

Reports from the camps in Wisconsin are to the effect that the loggers are not even taking time to grumble these days, so intent are they in hurrying the giants of the forest to river banks. The weather couldn't be better if it had been made to order. It is warm enough, and not too warm for good work. The thaws have had no bad effects in the woods where the snow is protected by the trees, but has aided very materially in bettering the state of the roads. There is no end to the icy roads, and the heavily loaded sleighs slip along almost by themselves. A shortage in the log crop is no longer thought of, and should the cut not come up to the anticipated amount it will not be on account of any fault of the contractors.

GRATEFUL-COMFORTING.

EPPS'S COCOA.

BREAKFAST,

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of the well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually fed up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette*.

Sovereign Grease

ST. CATHARINES, July 20th, 1889.

To whom it may concern:—
I have been using SOVEREIGN GREASE for the past two months, and I can say that it has given me entire satisfaction, and is a saving of 60 per cent. over Oil, and is that much better than Oil. I have been running eight (8) trips from St. Catharines to Montreal and return on 40 lbs. GREASE, and using it on my crank-pin as well as all other bearings.

Yours respectfully,
(Signed,) SAM BRISBIN,
Engineer "Ocean."

OTTAWA, Aug. 5th, 1889.

THE STOCK OIL & GREASE CO.
GENTS.—We have used the SOVEREIGN GREASE for some time, and do not hesitate to pronounce it a first-class lubricator, and as such has given us entire satisfaction as to its durability and cheapness.

Truly yours,
ARTHUR JONES,
Foreman of Union Machine Shops.

DESCHENES MILLS, Aug. 12th, 1889.
MESSRS. McDUGAL & CAZNER, Ottawa:
DEAR SIRS.—We have been using the Stock Oil & Grease Co.'s SOVEREIGN GREASE in our saw mills since spring, with very satisfactory results. Yours truly,
R. & W. CONROY.
