Canadian Press Despatch.

Canadian Press Despatch. Winnipeg, May 18.—Labor unions to-night dirculated a bulletin declaring that the railway runnins trades had requested the trades council to call them out to join the general labor strike of more than 30,000 persons, which paralyzed industry here. A strike by the trainmen would, it is believed, paralyze transcontinental freight and passenger service in Canada. Except for various rumors which could not be confirmed, largely because of isolation of commercial or press sunday passed quietly. The most dis-cussed rumor was to the effect that the government at Ottawa might op-ente the various industries in the city until a settlement of the differences between unions and employers could be effected. There was no way of con-mining this report. Tate tonight it was said that local officials and business men, in confer-ence with persons friendly to the unions, had drafted a plan intended to bring the disagreeing factions toge-ther. This plan will be presented to twas.said. Reports were current Saturday night

Sourday night's meeting of the North oronto Ratepayers' Association dis-ussed the housing problem in all its bases. A resolution introduced by J. phases. A resolution introduced by J. M. Skelton demanding that the houses about to be erected by the commission be set spart for the men returned was not very favorably entertained, and later Mr. Skelton withdrew the resolution. A number of those present have already signified their intention of applying for the commission's houses as built, Mr. Skelton took the ground that the housing problem was essentially a soldier's prob-lem and that the men engaged in over-seas work unable to look after their do-mestic affairs be given preference. No definite action was, however, taken. W. G. Ellis, H. H. Waddington and R. L.
