SEVENTEENTH YEAR

GOING TO HUDSON'S BAY

AN IMPORTANT EXPEDITION PROJECTED AT OTTAWA.

Ministers and Others Propose to Investigate Several Matters—Constitutional Points About the Life of Parliament Election Will Probably Come on in May or June—General Ottawa News.

Ottawa, Feb. 2.—Mr. Costigan, Minister of Marine and Fisheries; Mr. Daly, Minister of Interior, and Controller Wood are perfecting plans for a proposed expedition to Hudson's Bay during the coming summer. The enterprise is projected for the accomplishment of several purposes, viz., the establishment of customs offices to prevent American whalers from smuggling goods into the country; to enter into the report issued by the geological and biological survey of the fisheries; to make geological and meteorological observations, and, last, but not least, to make a complete investigation into the navigability of Hudson Straits.

Mr. Robert Bell, assistant director of the geological survey, who accompanied the late Lieut. Gordon to Hudson Bay in 1874, and has since frequently visited the shore, is expected to present the interior and geological survey reports to the House of Commons. Mr. Bell is also expected to make a complete investigation into the navigability of Hudson Straits.

The customs department early last year issued a circular for the guidance of collectors giving the rates on bicycles made in the United States were dutiable in Canada. Discounts were granted in the United States from 20 to 50 per cent, but from all the information which has been received, it does not appear that there is going to be much reduction in the price of the bicycle in this country.

As to the Elections.—Supplies for the next fiscal year are voted for in the session of Parliament, the present session need not meet until April, 1897. The Government will select any time before March 29, for holding the elections. It is questionable, however, whether any Government would venture to hold the elections at the separation of the Parliamentary term before appealing to the electors.

Mr. Bourne, speaking yesterday, said that when Parliament expires by effluxion of time, the Government immediately take steps to have Parliament called together. The only period of interval in which it is necessary to make a call to the electors is when the Ministry takes immediate steps to resign.

Mr. Robert Jeffrey, president of the Globe Printing Company, is in the city. Mr. Justice Fairbairn of the High Court of Ontario presided yesterday as judge pro vice of the Exchequer in the case of Mary O'Connor v. The Queen.

The Minister of Marine and Fisheries has decided to prohibit freighting of nets for fishing in Lake St. Francis and in the Ottawa River. Frequent complaints have been received by the Department of large quantities of very fine fish being caught soon after the opening of the season.

Mr. Justice Fairbairn of the High Court of Ontario presided yesterday as judge pro vice of the Exchequer in the case of Mary O'Connor v. The Queen.

Mr. Justice Fairbairn of the High Court of Ontario presided yesterday as judge pro vice of the Exchequer in the case of Mary O'Connor v. The Queen.

DEEPENING THE CANALS

A Live Question in Montreal Board of Trade Circles—The Civic Ring Recently Fractured.

Montreal, Feb. 2.—The shipment of Manitoba grain at this port for Europe or how to bring about the distribution of the Canadian Northwest's surplus products at this point, bids fair to become the live question before the new executive of the Board of Trade.

The other day the mercantile community was astonished by the statement made in the report issued by the Montreal Board of Trade to the effect that during 1895 the Grand Trunk railway brought 900,000 bushels of Manitoba wheat to the port of Montreal, while the quantity moved in the same direction by the Canadian Pacific was little more than 4,000 bushels.

But some one says that it all comes down by water, yet so far is this statement from being correct that one 100,000 bushels of Manitoba wheat was exported from the port of Montreal during the season of 1895, when about 4,500,000 bushels went by the American ports, via Buffalo.

Mr. Robert Bell, assistant director of the geological survey, who accompanied the late Lieut. Gordon to Hudson Bay in 1874, and has since frequently visited the shore, is expected to present the interior and geological survey reports to the House of Commons.

The customs department early last year issued a circular for the guidance of collectors giving the rates on bicycles made in the United States were dutiable in Canada.

UNCLE SAM'S MISFORTUNE

A SPECIAL TRAIN HURRIES THE HYANES ACROSS THE BORDER.

Released on \$1000 Cash Bail, and in Company with Their American Lawyer, Lose no Time in Escaping From the Scene of Their Many Misdeeds—The Scene of Their Many Misdeeds—The Scene of Their Many Misdeeds.

Harry Place Hyams and Dallas Theodore Hyams were yesterday admitted to bail in the sum of \$750 cash each, and were allowed their liberty.

They were released at 12:25 p.m. and, accompanied by Mr. Wellman, drove in a hack direct to the Union Station. Mr. Johnson followed in a coupe and the twins and their American lawyer left on a special train, presumably bound for New York.

Much curiosity was aroused when the twins were brought from the jail to Police Headquarters on Saturday afternoon. They came in a hack, accompanied by Detective Cuddy.

No one seemed to know why they had been transferred there, a 14-foot water-way must be secured between Montreal and Lake Ontario. The feeling here is that Sir Charles Tupper's program should include the deepening of the canals at the very earliest opportunity.

The municipal elections look place yesterday, and the ring, which has misgoverned at the City Hall for a number of years, received a terrible check in fact every ring candidate, except Alderman Rainville, who has been re-elected in the Centre Ward, met with overwhelming disaster.

Amongst the slain are Aldermen Nolan, in St. Ann's, defeated by Mr. Richard, by 785, and in the same ward Alderman Conaughton was re-elected by 419 votes over Mr. Dan, Galvin.

In St. Mary's Ward Alderman Joe Eckert, a very shining light in ring circles, was sent home to the precinct of 830 votes, against Mr. Charpentier by 107 votes to spare.

In St. Louis' Ward, Alderman Savigneau, both of whom always have voted right, have been re-elected, the first named by 292 and the second by 212 of a majority.

In St. Lawrence Ward the ring also made a grand stand, with its favorite candidate, Mr. James Cochrane, the proponent spent some \$10,000 in endeavoring to secure the election.

The Senate Finance Committee's Amendment to the House Bond Bill Goes Through at Last.

Washington, Feb. 1.—The long struggle in the Senate over the question of free coinage of silver terminated at 3 p.m. today in a victory for the friends of the gold standard.

The bill provides that the mint shall be open to the coinage of silver, and that the reduction of the present weight and fineness, and also the weight for the issuance of silver certificates, shall be subject to the approval of the Treasury.

The bill provides that the mint shall be open to the coinage of silver, and that the reduction of the present weight and fineness, and also the weight for the issuance of silver certificates, shall be subject to the approval of the Treasury.

TO TURN OUT PIG IRON. HAMILTON SMELTING WORKS READY TO BEGIN OPERATIONS.

Legislators, Foundrymen and Others Will be Invited to see the Works in Operation—County Council Meeting Closed—A Proposal to Reduce Pay Rejected—Giri Kill 4 in a Snowfall.

Hamilton, Feb. 2.—The difficulties in getting into working order a concern that the Manitoba school question is a local issue, which can best be settled by that province in its own way.

Paris, Feb. 2.—A terrible accident, resulting in the killing of eight persons and the wounding of 60 occurred today at Manlevrier, a village near Angers, in the Department of Maine-et-Loire.

The Wentworth County Council concluded its labors yesterday afternoon. The trip to the school question, reduced from \$3 to \$2 a day proved futile.

Herbert Marshall, a schoolboy, was charged with throwing the snowball which is alleged to have caused Alice Ethington's death.

At the Ontario County Council meeting, the Beaver Saw Works, which were carried on by the late Charles Carver and W. J. Copp, have been sold to the W. R. Gardner Tool Company, of Brockville, and the plant and machinery have been removed to Sturbridge, Que., where the business will be conducted under the old name of the Beaver Saw Works.

Dr. Ridley, who has been seriously ill for some time, was a little better today. A cablegram has been sent to his daughters in Leipzig, Germany, where they are attending school.

Two cases each of diphtheria, measles, and scarlet fever and five each of typhoid fever and chicken pox were reported to the Health Officer Ryall during the week.

The Lord's Day Alliance has served the Hamilton Street Railway Company with notice of appeal in the Sunday street case.

T. W. Barton will probably be the new chairman of the Public Library Board.

ONE CENT

THE SIZE OF THE MAJORITY

THAT IS ALL THERE'S ROOM TO SPECULATE UPON.

Sir Charles Tupper's Election in Cape Breton a Certain Liberal-Conservative Contesting Their Efforts With the Object of Keeping Conservative Voters at Home—An Estimate of the Vote.

North Sydney, C.B., Feb. 2.—There's nothing so uncertain as a horse race or an election, said Sir John Macdonald. That's as true as anything can be in a general way, but as regards the great contest to be decided in Cape Breton within the next 48 hours, there is nothing more certain than the triumph of Sir Charles Tupper.

The only element of uncertainty is the size of his majority. It will certainly reach 600, and it is just as likely to be 800 or 1000. The Liberal leaders never for one moment imagined that they could win, and all their efforts have been directed to keeping down the Liberal-Conservative majority.

If they can materially reduce it, they will claim that they have won a moral victory, and that there is a reaction against the new National Policy in the stronghold, the home of the coal mining industry. They express great confidence that they can do this and base their confidence on the following grounds: Of the 1600 new names on the list of voters the Liberals put on 1000 and thus have an advance of 400 to start with, and when the votes are counted these 400 ballots will tell more for Sir Charles Tupper than the 400 of Tupper's great fame and the enthusiasm which his candidature has aroused.

The Liberal party have an early start in the field with their candidate, and in every section of the county they are specially selected for the race and religious proclivities of the people. Thus D. C. Fraser, M.P., was relied upon to work the French-Canadians; Mr. Devlin, M.P., the Irish Catholics; Messrs. McIsaac, M.P., McCallum, M.P., and Christopher Chisholm, M.L.A., the Scotch Catholics, and Attorney-General Longley and a second of local importance, were calculated to do special work. They have put up an aggressive and thoroughly organized campaign. They have the most personally popular candidate the county select. They have adapted their campaign to the exigencies of the hour. Notwithstanding the fact that the declaration of their party is to strike down the coal duty, in the attempt to capture the miners vote, Mr. Murray, Mr. Fraser and Mr. Longley have abandoned that plank of their party, so far as this election is concerned. They expect to make great gains in the mining districts, and to work a trick among the Tories will not be able to counteract. This will probably explain why Mr. Tupper's speech on Monday and today proposes to spend to-morrow and election day with the Glace Bay miners.

The Catholic members of the Legislature from Ottawa and Annapolis were especially impetuous to induce the Scotch and Scotch Catholic vote. In many places they made a house-to-house canvass, and a story was told of a man who was induced to vote by the door-to-door canvass of a priest in his speech on nomination day. He said all this, and perhaps most important of all, that Mr. Tupper has devoted himself to the most energetic personal canvass in which he claims to have captured a great many votes. But perhaps, more than all, the Liberals are counting on keeping Conservative voters at home, their modus operandi for which I have already explained.

On the other hand Sir Charles Tupper has displayed much of his old time vigor and energy in the delivery of a splendid series of addresses at points along the railway, and been ably assisted by the local gentry and by a number of speakers of large eminence. The Conservatives rely largely on Sir Charles Tupper's speech, the prestige of his great name and the energy of his modus operandi for which I have already explained.

But how will the vote stand? That's a question the only the ballot boxes will reveal. At the last election 5000 votes were polled, of which McKean was by 1000. The very most that Mr. Tupper can get is 5000. The Liberals, which it is estimated that 6500 to 7000 will be polled. The very most that Mr. Murray can get is 5000. The Liberals, which it is estimated that 6500 to 7000 will be polled. The very most that Mr. Murray can get is 5000.

Mr. Murray's strongholds and estimated majorities as claimed by Liberals are as follows: North Sydney, 20, Sydney Mines 150, Glace Bay 80, Gables 80, Lunenburg 50, Low Point 100; total 680. Sir Charles Tupper's majorities may be estimated as follows: Glace Bay, Bridgeport and reserves 850, Port Morien 100, Grand Narrows 175, Botsdale 90, Letendre Creek 50, The Miras, Trout Brook, Hillside and Cattanee 250, East Bay 50; total 1165. Leaving Little Bras 400, Bonaventure, Big Pond, Louisbourg, Malmedie, Ball's Creek, and Lingon to about square themselves with the challenge of majorities in favor of Sir Charles Tupper. In these estimates I have given the maximum majorities to the Liberals and the minimum to the Conservatives.

A dozen young Halifax lawyers arrived last night to help the Tories in their fight to the Opposition candidate on election day. This is the first time that the lawyers have been imported to help in an election in Cape Breton, and their presence here excites much interest. Meetings will be held in various places last night and more will be held on Monday night.
