THE STATE AND INDIAN SCHOOLS n on the Granting of Governm oney for Teaching Religion-Prof, Farmer's Protest.

Religion is a matter which the State must leave alone. On the other hand the Clurch should not seek to control the State, but must attend to its own business." Professor Farmer of McMaster University delivered himself thus at the Ministerial Association yesterday morning. The discussion was in respect to State grants to Indian schools. Dr. Maclaren of Knox College favored the grants.

Professor Farmer said religion was a matter which the State must leave severely alone, and mutual respect and independence must characterize the relations between Church and State. To make such grants would violate principles of both Church and State. The latter should support State schools and the former religious schools. Dr. Maclaren supported the grants on the ground that the Indians were Government wards without the rights of citizens. Hence the State must provide education for the Indians coupled with religious instruction. If it would not give that in itself it should seek aid from the churches. The discussion will be resumed at a future date. ust leave alone. On the other hand the

LAST MEETING OF THE COUNCIL. Retiring President Gurney Gives a Dinne

Portland, Ore., Jan. 24.—The steamer Oregon sailed for Alaska last night with 450 passengers and 1250 tons of general merchandise and baggage. Fifty head of live stock was also part of the cargo. No less than 300 people who applied for passage were refused and hundreds of tons of freight were lying on the docks awalting transportation to the gold fields. The demand for lumber from Alaska is enormous, but steamships refuse to carry it, prefering to take less bulky freight, leaving the lumber for salfing vessels.
