Rumors were curnt that important developments had ocurred in the copper situation, and this, lith the somewhat easier money market in the afternoon, helped materially to change the showed noteworthy strength all day, and Missouri Pacific had a good advance the afternoon. St. Paul and Union Pacific were both heavy. The market looks if the extreme decline had been reached, at it will probably be irregular for a little hile, its course depending upon the money arket, and upon the question as to wheter the campaign in Amalgamated Copper over. The money market looks as if these would hold up at any rate around 5 from the next day or two, at least, for course, the higher rates are likely to tract money from the interior, and thus crease the supply. The results of some of the washings are in Mr. Windt's possession, and will be placed before the gathering with a full report of the season's transactions. It is fully anticipated that with the incoming season sufficient gold will be procured not only to defray development expenses but to fully reward the share holders for their confidence in the enterprise. The recent discoveries in the Horsefity district have been the centre of attraction, and the results are creating much enthusiasm. lowing from Chicago at the close of the market to-day:

Rain and snows thruout the Southwest, breaking the drought, was the bearish feature this morning. It was remarkable the amount of wheat wanted at this decline, and all the early profit-takers got on the bull side again, with the result that shorts got auxious, and from a very nervous market it developed into a bull one of the most radical sort, and again made high record. Statistics, crop conditions, etc., cut no figure in a market like this. Speculation is The Witzel-Groch Company 13 East Wellington-street, report the following fluctuations on the Chicago Board of Trade to-Juy Open. High. Low. Close. set it developed into a bull one of the most radical sort, and again made high record Statistics, crop conditions, etc., cut no high ure in a market-like this. Speculation is behind it. There is no use giving a theory to conditions which usually influence prices. Wheat is too low, and must sell higher, and we advise buying on the breaks, if not, buy anyway. There is 10c per bushely et to be made on the long side before the month is out, judging from present indications. It looked rand a few days ago to predict 85c for wheat; now it looks like 90c will seem cheap shortly.

Corn opened strong. Traders more interested in wheat than in corn, and playing the latter to move only in sympathy with the former. Another factor is the free movement of corn primary receipts of which were 400,000 bushels more than last year. Kansas City and Peoria received a quarter-million more than last year. This feature of the movement is likely to continue an important one. Nevertheless, corn will advance with wheat, but it is not by far so attractive. 82% 83%

Chicago Gossip.

John J. Dixon had the following from Chicago at the close of the market to-day:
Wheat—There has been a heavy volume of trade in wheat. There was heavy selling in the way of realizing by the class of holders who bought in the 70's. Offerings were in excess of demand, forcing values to 81½c for May. The heavy increase in the visible helped the decline. Buying at lower rates absorbed offerings, starting early sellers buying, forcing quick advance of 1½c. Statistical news continues hearish, but strong bullish sentiment ignores all bearish features. The market is influenced entirely by speculative rather than legitimate reasons.

Corn—Has felt the increased receipts to day and selling by bulls. The futures have yielded some, aitho, like the wheat, it has yielded some, aitho, like the wheat, it has yielded some, aitho, like the wheat, it has yielded sowly. Kansas City had a rush of receipts; so did Peoria. Primary points had over 1,000,000 bushels, 400,000 over last year and last week. Samples were easy, and off more than the futures. Patten was a reliable enough to justify the American as reliable enough to justify the American as reliable enough to justify the American as reliable enough to justify the American of foreighs in Turkey despatching emissaries to treat with the bandits, and application thas already been made to the Turkish from the already been made to the Turkish of the carries across the Turkish fronter, which is vigilantly guarded by troops stationed at every hundred yards.

Corn—Has felt the increased receipts to-day and selling by bulls. The futures have yielded some, aitho, like the wheat, it has yielded slowly. Kansas City had a rush of receipts; so did Peorta. Primary points had over 1,000,000 bushels, 400,000 over last year and last week. Samples were easy, and off more than the futures. Patten was a conspicuous seller. Local stocks decreased 287,000. World's shipments, 3,862, which the vicar discharged his clerical duties. The jury found for the plaintiff and awarded him fil00 damages.

The libel complained of was communicated to The East Kent Gazette by Mr. Mercer, and it reflected upon the way in duties. The jury found for the plaintiff and awarded him fil00 damages.

one bushels, with almost 2,500,000 from Danube.

Oats—Patten selling has been the feature in oats. Some think 2,000,000. Prices lost over a cent and then recovered a little. Receipts, 179 cars, with 130 to-morrow. The buying demand was very scattered, with a big trade. Cash markets rather easy, and premium fractionally reduced. Local stocks increased 44,000 bushels. Some of Patten selling was open, his name being given up. Provisions—Opened a shade higher, then sold lower on free selling of May ribs, pork and lard by packers and local operators. Towards the close prices were strong active and higher, with advance in grain markets. The country were again large buyers of May pork. Market closed firm at about highest prices of the day; 51,000 hoge sellmated to-morrow.
