

The Council Remains "Mum"

It Declines to Answer the Suggestion of the Street Railway Company

That They Be Permitted to Refrain From Running Cars.

Text of the Forfeiture Clause of the Bylaw.

The Company May Stop Operations for Thirty Days.

The Council Met In Camera—How Will Its Action Be Interpreted?

"No action." This is what the city council resolved upon at a secret meeting last night. When City Clerk Kingston was asked what the council did, he said, "They met and adjourned."

Yesterday afternoon the street railway company addressed a missive to the mayor, stating that they were ready to operate their cars, but as trouble was in sight, the company were willing to refrain from operating their cars until the trouble had blown over. They asked also that such non-operation be without prejudice to all the rights of the city and company, and not reckoned against them.

This letter the mayor carried to the city solicitor, who at 3:30 sent the following to the mayor:

"Dear Mr. Mayor, I have just read the communication of Messrs. Hellmuth & Ivey, of today's date, to you. You have asked me whether or not you have the power without the consent of the council, to make the agreement suggested in that letter."

"I am of opinion that the power to make such an agreement rests with the council, and not with you, as you have not, as I understand from you, been empowered to do anything in the matter. Yours truly,

"T. G. MEREDITH."

These two documents were what the council was called to consider last night. The members present were: The mayor, Ald. Taylor, Dreaney, Graham, Jolly, McPhillips, Greenleaf, Hunt, Stevely, Cooper, McCallum, Beaton, O'Meara, Douglass, and Wilkey. Those absent were Ald. Nutkins, Winnett and Gerry.

Ald. Graham moved, seconded by Ald. Dreaney, that the meeting be held in private, as all the business so far had been in private, and that the condition of the public pulse did not warrant them holding an open meeting.

The motion was carried, and the reporters and one or two spectators were requested to retire.

As soon as all was still a motion was made to file the request of the street railway company, and an amendment to this that the matter be laid on the table for future consideration, carried.

THE FORFEIT CLAUSE.

The following is the clause from the bylaws respecting the forfeiture of rights for non-compliance on the company's part:

"36.—In the event of the company failing or neglecting to construct, maintain, or alter or change the said railway or to alter or change the whole of their system as hereinbefore provided, or to construct and complete their said railway to Springbank in substantial conformity with the provisions of this bylaw, or in the event of the company failing or neglecting to maintain and operate their said railway in substantial conformity with the provisions of this bylaw, or by any agreement with the corporation heretofore or hereafter made, and in such case, the corporation shall have the right to require all obstructions and materials placed in said streets by the company under any such bylaw or agreement to be removed therefrom, and the said streets to be put in as good condition and repair as they were before the said materials and obstructions were placed therein, and the ex-

pense thereof shall be paid to the corporation by the company, and the corporation shall also have the right to run the said railways and to grant the same rights and privileges to any other company free from all liability for damage on account thereof."

WHAT IS THE EFFECT?

The action of the council may be interpreted by some as meaning that the company are compelled to run their cars, but by the many it is thought that the company may construe as consent the silence of the council, and refrain from running for 30 days.

THE LIMA MEN.

Columbus, O., Nov. 3.—A special to the Dispatch from Lima, O., says: A number of employees of the street car line in this city have returned from London, Ont., where they were sent to work for the line there, which is operated by the same company that operates the line here. When they reached London they found there was a strike on, and they refused to go to work.

Mr. Charles Currie, when he arrived here from Lima, O., when asked if any men had been brought from there, said "No," and if there were he would like to see them. If any had been brought he knew nothing about them.

SPECIAL POLICE TO BE SWORN IN

The mayor stated last night that a meeting of the police commissioners had been held and that he would swear in all the special constables necessary for the preservation of peace and protection to the street railway company's property. But just where these special police are coming from, if the feeling is so universal against the company, is a question that rather perplexed his worship.

MR. WATSON CORROBORATED.

Mr. M. H. Bird writes: "I wish to contradict a statement which appeared in your issue of the 2nd inst., to the effect that I tendered for street railway employees' suits at \$9 per suit. I deny that statement, as I never made any such tender since I have been in the city, nor would I furnish said suits for any such money. Yours respectfully, M. H. Bird."

RICHARD IS HIMSELF AGAIN.

To the Editor of The Advertiser:

Allow me to call attention to Psalms and ix about the city. Will Trade Unionists read "Castle of Indolence" in Thompson's poems? The word "scab" is used in Shakespeare's poems. Yours,

BROWN COMMITTED!

Peg-Leg Sent to Jail to Await Trial for the Murder of P. C. Toohey.

He Looks Well and Answered Questions Readily—Michael Malone Given Six Months for Theft.

Marion Brown, alias Thomas Allen, of Texas, was this morning committed by Magistrate Parke to stand his trial for the murder of P. C. Michael Toohey on the night of June 24, 1898.

There were few persons present in the court. The prisoner appeared unconcerned, and readily answered the questions asked him.

Mr. McPhillips said he had nothing further to offer, but before the prisoner was asked the statutory questions, he wished once more to protest against his commitment on the charge of murder. Speaking of the mass of evidence that had been taken at the preliminary examination, Mr. McPhillips said he had every confidence in Mr. Coe, and as there were over 600 pages of typewritten evidence, he did not wish to weary the court with its reading.

"Marion Brown," said the magistrate, "you have heard the evidence that has been taken. It has been written in shorthand. Do you desire to have it read over to you now?"

"Prisoner, No, sir."

"You have heard the evidence. Do you wish to add anything to it?"

"No, sir."

"Have you anything to say to the charge?"

"No, sir."

"You are not bound to say anything, but whatever you do say will be taken down in writing and be given in evidence against you at your trial. You must understand clearly that you have nothing to hope from any promise of favor, and nothing to fear from any threat that may have been held out to you to induce you to make any admission or confession of guilt; but whatever you do say may be given in evidence against you upon your trial, notwithstanding such promise or threat."

Prisoner—I have nothing to say.

The Magistrate—I make the usual order to commit the prisoner to stand his trial for the murder of Michael Toohey.

The prisoner was taken back to the jail, where he will remain until the assizes in January.

Michael Malone, for stealing a gold watch from Isabella Paul, of Talbot street, was sentenced to six months in the Central Prison.

Owen Gillean was given one month in jail for vagrancy.

MUST BE CLEAN

The Care of the Cow—How to Keep Milk Pure.

The udder, the flanks and the belly of the cow should be brushed clean and then rubbed with a dampened or wet cloth, before milking. This prevents the falling of dust particles and other things from the skin and hair of the cow into the milking pail. There is need for as much cleanliness as can be practiced and attained. There is no benefit from the aeration of milk in the stable during the winter. By the aeration of milk, either or both of two results are effected. A little of the odor, or cause of the odor in the milk from volatile oils, is taken out, and germs of all kinds from the air are taken in. There is nothing in the air of an ordinary cow stable which by getting into the milk can improve it. Therefore the less contact the milk has with that the better. There is no natural volatile odor from milk, and it is suggested that for butter-making, unless the cow has been fed on some food unsuitable in that respect, such as turnips; and aeration will remove only a very unimportant part of that. The so-called cow smell of pure clean milk, becomes a delicious fragrance, whereas the cowey smell which comes from stable filthiness, manure and other things is abominable.

SAVED FROM THE GRAVE

Miss Maud Cotterell's Tribute to Dodd's Kidney Pills.

Belleville, Oct. 31.—"I have been ill a person half-dead for months."

So says Miss Maud Cotterell, speaking of her rescue from the clutches of Bright's Disease.

"I could neither sit up nor lie down, and had almost lost hope."

"Dodd's Kidney Pills cured me, fully and quickly. They have saved me from the grave."

It has been proved, thousands of times, that Dodd's Kidney Pills cure Bright's Disease every time they get a chance.

Bright's Disease KILLS every time it gets a chance.

Dodd's Kidney Pills are the only remedy on earth that prevents Bright's Disease from killing, by rooting it out of the system entirely.

QUESTIONS ANSWERED.

BRIGHT.—A man died four years ago, without a will, leaving a wife, a son and a daughter, and the son has been controlling everything and taking all that is made; the daughter works all the time in the home, except ten months, since the father's death, receiving nothing except her clothing. Can she collect wages for that time, or if she takes wages can she also collect rent for her share of the property during that time? How should she go about getting her rights?
