the market yesterday. The majority of the sales were made at \$2.50 a gailon, as compared to \$3 the previous week. There was a fairly large offering, and the demand was not as keen as the makers had evidently anticipated. The demand had been partly met during the week by many who bought in neighboring districts at \$2 a gailon when it was not necessary to make deliveries. The offerings of eggs were plentiful, but the price remained firm at 40c a dozen. Butter was more plentiful than the previous week, and sold at 50c a pound.
