Thousands of Dollars Worth of Damage Done to Property As a Result of Rioting and Looting-More Trouble Is Feared in Irish City.

Londonderry, Ireland, Aug. 16.—Rioting and looting occurred in this city during the past night and early this morning. Troops charged on mobs, but did not fire any shots. The soldiers, however, were met with a volley of stones when they attempted to break up a Nationalist demonstration. The monetary loss from looting and from damage to property is estimated at thousands of pounds by police authorities.

The trouble started when Nationalists set fire to a large number of tar barrels which had been collected beneath an arch over which was displayed a picture of Edward De Valera, president of the Irish republic and sang the 'Soldier's Song." Unionists responded by singing the National Anthem. One force of troops kept the crowds apart, while other de-

tachments attempted to clear the streets, charging upon the throngs repeatedly. Bricks and stones were hurled at the charging troops, one soldier being seriously hurt. The Nationalists were finally driven

back to their own quarters. Windows were smashed and shops were looted by the crowds, and the city was in darkness the entire night. More rioting is feared tonight.

Although several revolver shots were heard during the rioting, no reports of anyone having been injured have been rewhile he and a number of his troops ceived. The troops declare that none of them fired any shots, and while he and a number of his troops declare that hone of them fired any shots, and became casualties, he succeeded in driving the enemy from the guns, of which about fifteen were captured.
