Machinery Was Made to Save Work

SOME women waste half their evenings over the darning basket. It is a mistake. What was machinery invented for? You say it is cheaper to darn stockings than to buy new ones. Cheaper in money, perhaps it is, but don't you value your time? Do you set

any price on your eyes? In February it is really not worth the time and the trouble to bother with worn out stockings. See the sale prices for

The Cloak Department Shows Types of New Suits

WE are not going to say much about the new styles today. We are waiting to hear what you say. We want you to comment on the various types we have imported, to give us a hint, in fact, so that we will know whether our judgment has been at fault or successful as before. We are confident what the verdict will be, but before we make a big demonstration we would like discriminating people to give us the benefit of their opinion.

We call attention to two in particular which visitors will have the opportunity to examine on Monday.

One of them is of imported French Venetians in black, navy, brown, green and smoke, strictly tailored, semi-fitting coat, 32 inches long, for spring costumes, lined with merback and side seams trimmed with strapping of self, fancy pocket flaps, handsomely trimmed with braid ordeep side vents, fancy buttons on cuffs, naments on front and centre of pockets, and seams at back, nine gore back, flare skirt has nine gores flare skirt has panel front finished tucked on each side of front panel, with buttons to match coat, Monday, finished with satin covered buttons, \$12.50.
