# HOW TO MAKE MONEY

# Another Crown Reserve Money Maker

### CANADIAN CENTRAL MINES LIMITED

The Canadian Central Mines Limited is an organization having a capital stock of \$1,000,000, divided into one million shares of \$1 each. Of this, 525,000 shares have been issued, leaving 475,000 shares in the treasury for the future use of the Company.

The Company is now operating twenty-eight producing oil wells in the Tilbury district. This is about ten miles the other side of Chatham. These twenty-eight well's have over fourteen miles of pipe in them. The wells miles the other side of Chatham. These twenty-eight well's have over fourteen miles of pipe in them. The wells miles the other side of Chatham. These twenty-eight well share for in them. The wells is no temporary one. The vary in depth from 1,390 feet to 1,465 feet. It is an established fact that this field is no temporary one. The vary in depth from 1,390 feet to 1,465 feet. It is a bonanza. It has produced 300 barrels of oil by natural twenty-eight well was drilled in last Friday. It is a bonanza. It has produced 300 barrels of oil by natural twenty eight well yesterday. Friday, the 28th, and found it looking better than ever. It flowed 22 barrels Thursday night, well yesterday. Friday, the 28th, and found it looking better than ever. It flowed 22 barrels Thursday night, and drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased, and will drilling rigs have been set to work on the 29th well, and three other drilling rigs are being purchased,

Wells now in operation are expected to produce as much more oil as they have already produced in less than three years. Thus basing estimate on that basis, the receipts should double, or from 78 wells, after deducting cost of same, we should have \$678,242.48 value in oil.

The estimate is based on this actual production and can be verified at any time. The stock is now selling at 75c per share, but will be advanced to \$1 per share in a short time. We recommend its purchase as a money-maker.

maker.

The Company not only owns these properties, but has en good silver prospects in the Gowganda region on which all the Government work has been done and development is being conservatively advanced on one of the Company's claims known as MR 2471.

The Company's object is not in any one branch of mining, but is a general development plan of mining propositions. It is being operated on conservative lines.

BUY THIS STOCK AND BUY IT NOW. DON'T WAIT for higher prices.

It is a well known fact that fortunes accumulated by wealthy people have not been made by allowing money to draw 3 per cent. They have placed various sums in what might be termed gilt-edge speculations. By this we mean investments that have a solid basis of worth, ones which cannot possibly under any circumstances lose all the money invested, this being the first factor. The next thing considered was the choice amongst this class of security for the one which would afford the greatest profit per dollar invested. The largest fortunes have been made by investments in

### Gold Mining, Silver Mining, Copper Mining, Oil Producing, Real Estate, Manufacturing, Patents

There are dozens of propositions submitted to investors constantly in each of these lines. More than three-quarters of them, however, lack the essential fact of having a solid base to start from. In MINING the first thing to be considered is the formation and character of the country in which the prospects or mines are located. The next essential fact is the management of the company or property which is offered for investment. If these points are carefully gone over by competent judges, it is safe to say that the speculation is what we would terms a gilt-edge one.

In REAL ESTATE foresight is absolutely essential to successful speculation. You must discount the future possibilities of the location in which you are investing. The opinion of an expert realty man will give you a fair idea of the best opportunities offered in this line.

In MANUFACTURING, the detail management is an absolute essential to the operation of the business.

No matter what the manufacturer turns out, if the management is not economical, failure is bound to attend a venture of this class.

PATENT investments offer probably the most alluring prospects to the speculative mind, but for every successful patented article, there are thousands of failures, in the most cases due largely to the tack of funds necessary to put the article on the market, the general idea being that a few dollars invested in plant and necessary to put the article on the market, the general idea being that a few dollars invested in plant and hardly any money on hand to carry the business, will make the patentee and his associates rich. As a matter of fact it has been demonstrated that 90 per cent. of the money invested is required as floating capital in promoting the patented article.

We make a specialty of investigating everything that we offer to our clients, and doing it thoroughly. We secure the best advice possible, often at great expense, for our own guidance, and our clients get the benefit of secure the motive on our part is really a selfish one. We know that clients do not remain clients if they constantly lose their money. We also know that by making money for our clients we make it for ourselves, and hold them as clients, and they in their turn recommend us to their friends. It is our aim and object to secure the largest clientele of any investment house in Canada, and to do this we must have your co-operation, and we recognize the easiest way to obtain this is by making you money.

We know that words are cheap and that the majority of advice offered to the public through the advertising mediums is not backed up by any solidity. Dozens of new firms are constantly appearing in print and just as constantly disappearing from public view, and to get over that point we purchased the splendid building at the corner of Scott and Wellington Streets for our headquarters. This stands as a solid security and guarantee of good faith to the investing public. It should illustrate that we are here to do business. We pride ourselves on conservatism and the protection of our clients in their investments. We can make money for you if you give us the chance.

Our advice is to buy Canadian Central stock.

### COBALTS

We recommend the purchase of Cobalt Lake, Little Nipissing, Beaver and Temiskaming for higher prices. We have constantly called your attention to the slight, but sure, advance in Cobalt Lake and Little Nipissing. You can make money by getting into these now. Lakes should sell around \$4 per share. Kerr Lake will advance again. The Cobalt camp shipped 15 per cent. of the world's entire silver output last year. Right-of-Way has struck another good vein. This stock should be bought around the present price of 700 per share. The next dividend is almost due.

### NEW YORK MARKETS

ly afforded clients for making money quickly in New York stocks. Conservatism must be exercised.

We advise the sale of May wheat. We are constantly watching the We are constantly watching the New York market for opportunities for money making. If you will open an account with us from \$500.00 upwards, we can show you substantial profits from month to month, and we will not overload any account with more than that account can stand. By this we mean keeping in reserve sufficient money to protect all transactions.

# RHEUMATISM AND WEAK KIDNEYS GURED

Wear My Belt Three Months. if It Cures You, Pay Me-If Not, Send it Back and We Are Friends. No Cost to You.

I want to talk to men who have pains and aches, who feel run down physically, who realize that the old "fire" and energy which was so evident in youth is absent now; men who can't stand the amount of exertion they could years ago. I want you—if that means you—to see what I have done for others who were just as badly off. That's my introduction. If a friend in whom you have confidence presented someone to you and said: "Jack, here's Brown; he has made good with me and I trust him."

Now, if you don't feel right, I can cure you with my Electric Belt. If you are full of rheumatic pains, I can knock them out. I can pour oil into your joints and limber them up. I have often said that pain and electricity can't live in the same house, and I prove it every day.

HAS THROWN HIS CRUTCHES AWAY.

Dr. McLaughlin:

Box 325, Owen Sound, Ont.

Dear Sir,—I am pleased to tell you that I am able to follow the team all day. The money I paid you for your Belt was the best investment that I ever made. When I got your Belt I had to use crutches to get around, and now I am able to do all of the sound in the second in the se

This is specially directed to men who have doctored for years without benefit. I want men with Rheumatism, Pains in the Back, Weak Kidneys, Sciatica, Lumbago, Varicocele, Prostatic Trouble (I care this by a new method), Locomotor Ataxia, Torpid Liver, Indigestion and Dyspepsia. All these troubles in chronic form I can cure with this new Belt, even after all other treatments have failed. To every weak, debilitated man who wears this

## New Electric Suspensory Free

Give me a man with pains in his back, a dull ache in his muscles or joints, come-and-go pains in his shoulders, chest and side. I will pour Give me a man with pains in his back, a dull ache in his muscles or joints, come-and-go pains in his shoulders, chest and side. I will pour the oil of life into his aching body and drive out every sign of pain. It is impossible for pain to exist where my Belt is worn.

The reason so many men neglect to use my Belt is that they fear it will fail like other things they have tried. Now, the security that I offer to the doubtful man is that he need not pay for my Belt until it does for him what I say it will do, if he will in turn give me reasonable security that he will pay me when cured. Isn't this fair? My Belt has cured more than 50,000 people in the last twenty years, and where it failed curity that he will pay me when cured. Isn't this fair? My Belt has cured more than 50,000 people in the last twenty years, and where it failed to cure I have stood the loss. Now, if you are sick or in pain, or a weak man or woman, and are tired of doctors and drugs and paying out money without results, try my Belt. You have nothing to lose and everything to gain by accepting my liberal offer. without results, try my Belt.

## PAY WHEN CURED

Send for My Book To-day.

Do you want to feel big, husky and powerful, with your veins full of youthful fire, your eye clear, and your muscles strong and active? If you do, fil! out this coupon and send it to me, and I will send you a book which will inspire you with the courage to help yourself. It is full of the things that make people feel like being strong and healthy, and tells of others like yourself who were just as weak once, but strong and healthy, and tells of others like yourself who were just as weak once, but strong and healthy, and tells of others like yourself who were just as weak once, but are now among nature's best specimens of strong and healthy human beings. Cut out the coupon and send it to-day and get this book free, sealed, by return mail. Call for free consultation. Office hours, 9 a.m. to 6 p.m. Wednesday and Saturday till 8.30 p.m.
