SAPPHO, Captain W Hotham, Esq ; Lieuts. J J F Newell ; Cornelius Rickerts ; J Perrian, master ; W R Chester, purser ; W Burns, M D surgeon ; T R Dunn, assistant do.

To preserve Apples — Dry a glazed jar perfectly well, put a few pebbles in the bottom, fill the jar with apples, and cover it with a bit of wood made to fit exactly ; and over that put a little fresh mortar. The pebbles attract the damp of the apples. The mortar draws the air from the jar, and leaves the apples free from its pressure, which, together with the principle of putrefaction which the air contains, are the causes of decay. Apples, kept thus, have been found quite sound, fair, and juicy, in July.

Sick Head Ache. — To remove an attack of the sick head ache, a correspondent in one of the monthly journals, recommends the patient to take a spoonful of ginger mixed with a lump of sugar, in a tumbler three parts full of water, with chill off ; to sit for quarter of an hour, with his feet in water agreeably warm and to apply a napkin wrung out with cold water to the temples or forehead, whichever appears the most affected.

FINIS.
