## CANADA WILL DO HER ALLOTTED TASK

Greatest Period of Seeding ever Given to Production of Grain Assured.

NCREASED AVERAGES

Wheat Provinces Will Show Far Better Results Than Before.

hin the next few weeks the ners in Canada will be engaged upon the work of seeding the greatest age which has ever been given er to the production of grain in the ory of the Dominion. While staics portraying the actual increase tistics portraying the actual increase in area will not be given until the federal authorities at Ottawa compile in the late spring the reports from their correspondents on work done, the findings of investigations which have already been completed point clearly to the conclusion that the additions through the western provinces at least, will be very considerable in extent. Officials of the Canadian Northern recently finished a survey of fall plowing along the lines of the Company in Manitoba. Saskatchewan and Alberta. The figures which were sent in, of course, deal with C. N. K. only, but they may be taken as an indication ed to the call for a greater production of foodstuffs in Canada. Five hundred and thirty-nine agents contributed to the report in order that it would be the report.

thoroly representative of the territy served.
Increase Average 40 p.c.
Aitogether, along the Canadian Normern lines in the prairie provinces to increase may be averaged at forty or cent. The figures give a total creage plowed last fall of 6,181.376 cres. This is an increase of 1,766,109 cres over the preceding year. Figured 2 21.3% bushels to the acre—the flat verage of the yield in western provess in1914 for wheat, oats and bary—the grain yield from fall-plowed along the Canadian Northern in anitobs, Saskatchewan and Alberta. dd basis of last year the increased eage would produce 37,759,889,04 sheis. But 1914 was an off year for ain production in the west and that grage will probably be exceeded in

The largest acreage for any one sta-tion was reported from Star City, in the black loam district 10 Northern Saskatchewan. It was given as 110,-000 and the increase over last year as 40 per cent. Naisberry, close to Star City, reported 75,000 acres. Melfort, nearly on the same line, claimed an in-crease of 100 per cent.

Rosthern reported an increase of 200 per cent. over last year. Duck Lake's 50,000 acres is an increase of 75 per cent. To the north, Hafford, of Prince Albert and North Battle-ford, reported 72,000 acres, an area 95 per cent. greater than in 1913. To the south in the Saskatchewan. Delisle. on the Saskatcon-Caigary line, reporton the Saskatoon-Caigary line, reported \$8,000 acres, which is an increase of 30 per cent. Marshall, on the main line toward the Alberta boundary, returned 50,000 acres. In Alberta, the town of Hanna reported 40,000 acres, an increase of 20 per cent. Stettler, in the central portion of the province, gave 30,000, an increase of 20 per cent. Craigmyle, close to Caigary, reported 40,000 acres, and Della, the next station, 47,000, which is an increase of 200 per cent. Two towns on the same line, closer to the Saskatchewancloser to the Saskatchewan-rta line—Cercal and Chinook— rt 15.000 acres each In the ler the increase is given at 1400 per cent, while at the latter place there was no fall plowing done in

Even in the older-settled parts of the west, there are gratifying increases. At Morris, in Manitoba, the screage is given at 30,000, and the in-crease 35 per cent. At Gladstone there are 20,000 acres, which reprethere are 20,000 acres, which represent a 25 per cent. Increase. At Spirling, in the Carman subdivision, the agent reports 40,000, which is an increase of 15 per cent. At Dunrea in the Hartney district the figures jump to 70,000, which represents an increase of 70 per cent. Kipling reports 75,000, an increase of 90 per cent. As these are the conspicuous returns only it is apparent that Canada is doing her allotted part of the ada is doing her allotted part of the lask which is at present confronting

RICHEST WOMAN DEAD.

Mary Garrett Left a Fortune of Twenty Million Dollars

BALTIMORE, April 3 .- Miss Mary Garrett, only daughter of the late John W. Garrett, died suddenly last night at the Deanery, Bryn Mawr College, Pennsylvania, where she had been living for several years. Miss Garrett was one of the best known women philanthropists in this country. She was considered the richest woman in Maryland, her for the best was one of the best woman in Maryland, her for the best was considered the best was considered the best was considered the best was considered the best woman in Maryland, her for the best was considered the best was considered the best was considered the best woman in Maryland, her for the best was considered the best woman in Maryland, her for the best was considered the best woman in Maryland, her for the best was considered the best woman in Maryland, her for the best was considered the be tune having been estimated as ranging between \$15.000,900 and \$20.000,000.

WORK HAS STARTED.

s Well Under Way.
