WHAT THE WAR HAS COST THE UNITED STATES

Financial History Set Forth By Secretary McAdoo

Billions In Taxes

Remarkable Achievements in Paying Bills of Army, Navy and Other Departments and Extending Aid to the Allies

Washington, Dec. 9.—The financial history of the United States part in the war is set forth by Secretary McAdoo in his annual report drafted before his resignation, and made public today by the Treasury. It is the history of how the American people paid billions in taxes, raised four great liberty loans and which the Treasury through its many war agencies paid the bills of the army and navy, the Shipping Board and other government departments, loaned billions

mentioned as the one most likely to succeed Mr. Rayell.

Hayden Is President.

New York, Dec. 10.—John A. Hayden was elected president, secretary and treasurer of the National League at its annual meeting here tonight. The three offices are combined for the first time since 1907.

FOOTBALL

Old Country Matches.

London, Dec. 10.—(Canadian Associated Press).—The following are additional results of the football games played on Saturday:—

London: Combination—Brentford 5, Queens Park 1; Clapton 0, Chelsea 5; Fulham 0, Millwall 1; Tottenham 1, Arsenal 0; Westham 2, Crystal Palace 0.

Midland Section—Barnsley 2, Birmingham 1; Bradford 5, Grimsby 0; Hull 5, Lincoln 1; Leeds 1, Sheffield, Wednesday 1; Leicester 5, Notts C 0; Huddersfield 0, Notts Forest 1.

Lancashire Section—Blackpool 1, Everton 3; Burnley 2, Manchester C 1; Bury 2; Rochdale 1; Liverpool, 5, Oldham 1; Manchester United 1, Bolton 0; Southport 4, Burnley 0; Stockport 1, Blackburn 0; Stoke 5; Preston 1.

The Coming Year.

Looking forward, Secretary McAdoo found great difficulty in forecasting expenditures for the current fiscal year, which ends next 30 on account of the sudden coming of peace. Estimates which he presented are based on calculations of each department in advance of revisions since the signing of the armistice and he does not consider them reliable. With this explanation Mr. McAdoo forecast expenditures for this year at \$29,687,000,000 for government purposes and \$4,375,000,000 for loans to Allies and \$2,540,000,000 for redemption of outstanding certificates and other debt cancellation. Total estimated disbursements for the year were put at \$37,718,000,000.

Against this estimate which actual expenses at the rate of a little more than a billion and a half dollars a month to date, indicate is too high, Mr. McAdoo calculated that the government will receive about \$5,000,000,000 before the end of the fiscal year next June 30, from income and profits taxes, \$1,100,000,000 from other taxes, \$190,000,000 from customs and \$355,000,000 from miscellaneous sources, including \$70,000,000 from increased postage, making estimated receipts from ordinary sources \$5,846,000,000. In addition he figured roughly on a little more than \$5,000,000,000 from further issues of liberty bonds and \$1,200,000,000 from war savings. These figures added to receipts from Liberty Loan bonds already sold make \$14,146,000,000 the total of popular borrowings

expected during the year. On this basis total estimated receipts would be \$21,022,000,000 or \$6,695,000,000 less than tentative estimates of disbursements. Actual developments are expected to change these calculations greatly.

Debt Is Tremendous.

The United States' public debt last June 30 was \$12,396,000,000, without taking into consideration the \$1,313,000,000 free balance in the treasury to partially offset the debt. The public debt has been increased since then by the fourth Liberty loan of nearly \$7,000,000,000 and by treasury certificates of indebtedness amounting to several hundred million dollars.

The report disclosed for the first time the activities of the treasury's sinking fund to buy up Liberty Bonds in an effort to keep their price from falling far below par. Up to Nov. 1, it is shown, \$244,036,500 worth of bonds, face value, had been purchased on the open market for \$284,310,000, or at an average price of about 96 per cent, and subsequently held by the treasury. Of this sum, \$172,448,000 were second Liberty Loan bonds, of both 4 and 4½ per cent issues; \$70,935,000 were third Liberty Loan bonds, and \$85,600,000 were first Liberty Loan converted bonds.

The report also showed that the War Finance Corporation, up to Oct. 31, had made loans amounting to \$67,716,000, of which \$29,863,000 had been repaid, leaving advances outstanding \$37,852,000. Most of the loans, or \$64,739,000, went directly to war industries. Public utilities were the principal borrowers, while lumber companies, coal operators, manufacturers and stock raisers rank next in number of applications.

The magnitude of the work of the capital issues committee was indicated by the report that since its organization last May 17 it has examined nearly 2,000 applications from prospective issuers of securities, aggregating about \$2,850,000,000.

"About 20 per cent of these applications were declined," said the report, "and these were mostly of a character involving new extensions which would not be contributory to the winning of the war. The prevention of approximately \$450,000,000 of unnecessary issues which could be postponed was an important contribution to the conservation of the nation's resources."

Mr. McAdoo took the occasion to emphasize again the importance of hastening enactment of the revenue bill now pending in congress.

"Unless the measure becomes a law in the near future," he said, "it will not be physically possible for the treasury to print and distribute the necessary forms before the returns and taxes will be due. The enforcement of the law will necessarily be impeded."

Satisfied She Would Suit.

"I must say Jack was very business-like in his proposal."

"How do you mean, dear?"

"He told me to consider myself engaged."
