YACHTING. YESTERDAY'S RACE.

New York, Oct. 13.—America wins in a gallop that splits two spinners on Lord Dunsraven's Valkyrie; the Vigilant was the third of the international races, and the cup is ours for another year. The trophy remains in this country and Lord Dunsraven goes home without a race to his credit. He goes with the satisfaction, however, of knowing that he led the Vigilant by almost two minutes in beating in all probability have won to-day's race but for the accident to his canvas. As it was the Vigilant won by forty seconds. It was a day to test seamanship as well as yacht architecture. It was just the day that Lord Dunsraven and all the British crew had prayed for, and the kind of a day in which he still claims that his yacht can outstrip the Vigilant. He had been beaten in two races, once in a light wind, and the second still more easily in what Americans call a stiff breeze—his only hope was in a gale, and the gale split his sails, while the Vigilant came home under a light cloud of canvas with the wind rippling through her shrouds and without a mishap of any kind. The Valkyrie had an additional 2,240 pounds of ballast in her hold, and Lord Dunsraven and his friends knew that she would make a better showing in a heavy wind and sea than she had yet done. They were even hopeful that within wind she might head off the Vigilant in her run of victories. The additional ballast had increased her load water line so that she had a time allowance of one minute and thirty-three seconds instead of one minute and forty-three seconds.

The clubs could then arrange the grounds to suit themselves and maintain them on the percentage plan, the club and the company dividing the gate receipts. The company has 64 acres, only a small portion of which they need for their own use, so there is room for all the clubs desiring grounds.

CRICKET.

AUSTRALIANS BEAT CANADIANS.

Toronto, Oct. 17.—At the conclusion of the first innings of the Australian and All Canada's cricket match, the Canadians not having scored half as much as the Australians, followed on with their second innings. ONE MORE FOR AUSTRALIA.

Detroit, Oct. 18.—The weather was beautiful to-day for the commencement of the cricket match between the D. A. C. team of eleven men and the all Australia team of twelve men. The match took place in the grounds of the Detroit Athletic club. The attendance was small in the morning, but increased somewhat in the afternoon. The ground was wet and the crease a hard one for batsmen. The Australian batsmen, Captain Dodds, on winning the toss, decided to send his men to bat. In the afternoon the crease had dried somewhat, and favored the batsmen. Play began promptly at 11 o'clock, with Jenner and Macpherson at the bat. Jenner was cleverly stumped by Blackham in a few minutes. The Deltras seemed to be afraid of their opponents or over anxious, and the wickets fell rapidly. The fielding of the Australians was remarkable. The field being a "stems well," through which it was next to impossible for the Deltras' batsmen to hit safely. Cunningham made a phenomenal catch of Kinney's long drive that looked to be good for six. Only two of the Detroit batsmen reached double figures. Jenner and Macpherson at the bat.
