What Bad Company Did for
Young Bert Austin.

SAN QUENTIN AND HE EMBRACE

A Musical Treat for the Golden Gate—
King Kalaikana's Late Chamberlain,
Col. MacFarland, Quitts—An
Australian Singer of Note the Blush-
ing Bride.

Sacramento, April 24.—Bert Austin,
son of a wealthy merchant of Kansas
City, ran away from his home and came
to this state. He fell in with a criminal
and together they robbed a store at Bag-

dad and in December last were
sentenced to San Quentin, Austin receiving
two years and eleven months. Through
the intervention of his mother, who was
in the state a few weeks ago, young
Austin has been pardoned by Governor
Markham.

San Francisco, April 24.—A local paper
says: "L. M. Thurston, the Hawaiian
minister to Washington, has been woun-

ded in a filibustering expedition to re-
capture the royal throne, which is being
contested by the Hawaiian government
and the United States. The expedition

pneumonia is the only disease against
which slaughter at the ports would afford
a full measure of security. Under the
present law there are ample safeguards
against the introduction of this disease,
and compulsory slaughter would be de-
cidedly detrimental to commerce. The
government cannot accede to the demands
of the delegation.

SHATTERED RANKS.

Dave's Awkward Squad Kopeless,
Dispirited and Sad.

Oakland, April 24.—The San Francisco
and Oakland industrial armies are still
camping in and around Cartier's barn at
foot of Broadway. They propose to parade
in the rear of the grand army this
forenoon but Grand Marshal Allen an-
nounced that he would use force to pre-
vent it and that he had permission from
Governor Markham to do so. They had
a consultation and some of them went
to parade and allow the whole army

to be arrested but the latter were
postponed until 1 o'clock, when the
grand army review will be over.

Boonesboro, Md., April 24.—The Com-
monwealths left Camp Daniel Boone this
morning on their long day's march to-
wards Frederick. The route is over the
historic battleground of South Mountain.

Sherriff Herbert accompanied the party to
Frederick line.

Middletown, Md., April 24.—The Coxey
army passed through Turner's Gap at
half-past eight o'clock this morning. The
sheriff met it on Bolivar heights.

The army, which has been shelling
the world's fair has reared its head above
the scene of ruin and desolation at Jack-
son park. It will be removed to New
York, where it will be created at Broad-
way and 87th street. The work of tak-
ing down, transporting and re-erecting
the wheel is expected to occupy the great-
er part of six months.

Had to Import Talent.
New York, April 24.—Nearly all the
sections of the bronze figures for the
Confederate soldiers and sailors' monu-
ment, which is to be unveiled next week
at Richmond, Va., have been shipped
from the bronze foundry in this city.

One of the sections of this statue
is the largest ever cast in this country.
The main statue is sixteen feet in height,
and weighs nearly 6,000 pounds. The
foundry workers who made the statue
have been invited to be present at the
unveiling.

Coxey's Notoriety Spreading.
London, April 24.—The Coxey move-
ment in the United States is attracting
considerable attention both in this coun-
try and in the United States. The organ-
ization of the trades unions and labor or-
ganizations in general are publishing long
articles in the leading papers. The organ-

Only Temporary Dulness.
London, April 24.—Owing to the scar-
city of orders the workmen of the Royal
Gunpowder Works at Waltham Abbey,
several hundred in number, were to-
day placed on half time. For the same
reason several hundred men will be dis-
charged on Saturday from the Royal
Gunpowder Works at the same place.

The official order states, however, that
a period of greater activity is shortly ex-
pected.

A Triple Lynching.
New Orleans, April 24.—Sam Slaughter,
Tom Claxton and Dave Hawkins, three
negroes, charged with the murder of
a white man, were taken from the jail at
Tallahassee and hanged to the banisters
of the court house this morning.

EVEN THEY QUARREL.
Believers in the Mahatmas Will Stand
no Monkeying.

San Francisco, Cal., April 24.—The
delegates to the annual convention of the
American Theosophical Society have
practically concluded their business and
today are visiting points of interest
about the city. This afternoon they
were at the Midwinter Exposition.

Notwithstanding the vindication of
General Secretary Judge, who had been
charged with monkeying with the sacred
offices and privileges of the Mahatmas, it
is the opinion of many of the delegates
that the trouble in the society is not by
any means ended, and that the high
priests of the order, who are under the
influence to a very large degree of the
Hindu theosophists, will arrogate to
themselves the authority of a supreme
tribunal, and possibly suspend the Ameri-
can section from full communion. In
this event there is likely to be a split in
the order.

It is a fact that many of the most
prominent members of the society in this
country have for some time been restless
because of the Mahatmas, or the perfect
men from whom the teachings of the
society are supposed to come, are domi-
ciled in India. They are understood to
contend that there is no reason why
there should not be American Mahatmas,
and in fact, it is strongly suspected that
they are themselves willing to be regard-
ed as perfected men, and organs of the
esoteric philosophy.

It is therefore not unlikely that the
osophsists will be called upon to deal with
a division in their ranks, and that an or-
postrophe to the philosophers of the moun-
tains of India will be started on this side
of the Atlantic.

Everything Went.
Burkeville, Tex., April 24.—A cyclone
yesterday raised every house at Gilchrist,
except one. Only one person was in-
jured.

To the Annexation of Samoa to
New Zealand

GERMANY SAYS AGH NEIN MEIN HERR

New Zealand She says Has no Right to
Interfere. The National Free Press
says: "Germany's position is a most
unpleasant one. The German Com-
mercial Interests are in the
Islands."

Berlin, April 24.—The North German
Gazette, in an inspired article regarding
the annexation of Samoa to New Zea-
land, says the latter country has no right
to interfere with the German interests in
the islands.

The three treaty powers inter-
ested are perfectly competent, it says,
to arrange matters with due regard to
the interests of Samoa. The commer-
cial interests of Samoa are almost exclu-
sively in German hands, and no amount
of agitation on the part of English col-
onies can alter that fact.

Shifting the Ferris Wheel.
Chicago, April 24.—A small army of
skilled workmen to-day entered upon the
task of taking to pieces the Ferris
Wheel, which since the close of the
World's fair has reared its head above
the scene of ruin and desolation at Jack-
son park. It will be removed to New
York, where it will be created at Broad-
way and 87th street. The work of tak-

leader acted the part of a buffoon. He
was incoherent, maudlin, and much which
he said was unreportable. The house

incurable disease, which sometimes ren-
ders him irresponsible and which must
soon force his retirement. The least in-
dulgence is fatal to his self-possession.

COXEY'S INDUSTRIALS.

Progress of the Pilgrims Towards Wash-
ington City.

San Francisco, April 24.—The San
Francisco and Oakland Industrials are
progressing towards Washington City.

This morning the San Francisco contin-
gent withdrew from the Cartier land and
in future will have quarters in some re-
cent storehouse. The Oakland army has
been reorganized and Dr. Smith is
in sole possession with the title of colonel.
There are no signs of a movement east
by the two armies. The San Francisco
men took lunch to-day with the Oakland
army, which is fairly well provided with
food and has a little over \$100 in the
treasury. San Francisco soldiers were
out this afternoon soliciting food, etc.

St. Paul, April 24.—The government
has decided to apply the stern hand of
repression upon the 500 Coxey cranks
who are flying through Montana on a
train they stole from the Northern Pa-
cific railway at Butte last evening. U.S.
Marshal Deke received the following
from Attorney General Olney: "Execute
any injunction by any other process plac-
ed in your hands by a United States
court for the protection of persons or
property against lawless violence by em-
ploying such number of deputies as may
be necessary. If execution is resisted by
force, which cannot but be overcome, let
the judge issuing the process wire the
facts to the President, with the request
for military assistance."

About the same time Marshal Deke
received the following from Judge Cald-
well of the United States circuit court
at St. Paul, Minn.: "If the persons
who are flying through Montana on a

cific railway at Butte last evening. U.S.
