THE FIGHT FOR

BRITISH COLUMBIA WANTS COMPETITION

Committee Rises Without Having Finally Disposed of the Bill-Opposition Talks It Out.

(Special to the Times.)

Ottawa, June 22.-At the railway ommittee to-day the discussion of the Victoria, Vancouver & Eastern bill was resumed by Mr. Drinkwater, who opposed the bill. He said that it was a case of J. J. Hill and the Canadian Northern against the Canadian Pacific and the interests of the Canadian peosons are dead as the result of the wreck of the 20th Century Limited on the Lake ple. The plan was to divert the business of the southern part of British Columbia to the States.

R. G. Macpherson (Vancouver) made one of the most torcible and effective speeches which has yet been delivered on the subject. He wanted to consume Two additional bodies burned beyond as little time as possible and at the same recognition were also taken from the time to put the case as strongly as pessible, and he succeeded in doing so. He said that the people of British Columbia Japan. In the meantime the chancellorwanted to have competition with the les of St. Petersburg and Tokio are Canadian Pacific. Would the committee through pouches from the West and destined for Eastern points. refuse that? The case

Should Be Treated Fairly squarely, and that was that the people of British Columbia were desirous of seeing another road reach the ity of Vancouver from the Boundary Creek district. The people of British Columbia were in favor of the Victoria, Vancouver & Eastern railway so as to afford additional railway facilities and railway competition.

For the last eight years the hope of the people of British Columbia has been upon the building of this railway. So much so that the British Columbia legislature on two different occasions offe bonus of \$1,500,000 for the building of this road. The people and the legislature of British Columbia recognized the necessity of this road, so much that there was perfect unanimity for its being built. The province of British Columbia was a large one, but it was numerically small, and he asked the committee not to crush out railway competition for the province. British Columbia wanted was

ROOSEVELT AGAIN TAKES THE INITIATIVE.

St. Petersburg, June 21.-President posevelt has evidently taken a new important step in the negotiations between the belligerents. While there are coliateral reasons for believing that it relates to an armistice which will preven the impending battle in Manchuria, this cannot be positively attirmed. All that can be stated definitely is that Ambas-sador Meyer went suddenly to the foreign office late last night and had an in-terview with Foreign Minister Lamsdorff, at which it is believed the ambassador communicated an important message to President Roosevelt, but at neither the foreign office nor the American embassy is the slightest light thrown

what transpired. From the extreme secrecy observed the matter beyond doubt is one of the gratest delicacy, but as the statement is uchsafed at the foreign office that the negotiations are proceeding without a hitch, the inference follows that it reates to a new phase in which the Presilent has again taken the initiative. This is the more certain since the com ations between the belligerents relating strictly to the questions of selecting of lace, time, and number of the pleniotentiaries were conducted naturally through Ambassador Cassini and Min-ister Takabira, through the intermediary of the Washington government, whereas according to diplomatic pro cedure only communications from the Washington government reach Foreign Minister Lamsdorff through Ambassador
