LOVE WHILE YOU WAIT.

<text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text><text>

Alice, of course, might have turned Percy ?" "No, perhaps not, Alice; but what mat-ters it? We have but taken time by the forclock, haven't we, dearest?" The rest is conventional. It was the old, old story and Percy's preudo-com-mercial compact was scaled after a fashion that may be traced back to the beginning of things.

Kind Words Come From

All Classes and Creeds Praise Paine's Celery Compound.

Public institutions throughout Canada are as ready to acknowledge the marvel-ous virtues of Paine's Celery Compound as are private individuals.

Public Institutions

vate Individuals.

are aready to acknowledge the marvel-lous virtues of Paine's Celery Compound as are private individuals. For many years, a large number of our public, benevolent and religious corpora-tions have used Paine's Celery Compound for the benefit of old and yourg, and if it were possible to publish all the statements mode by the inmates. scores of the letters would prove interesting and entertaining. In institutions like those referred to, where hundreds are cared for every year, all the common ille and diseases of every day life are found, and many hundreds have been mide well and diseases of every day life are found, and many hundreds have been mide well and diseases of every day life are found, and many hundreds have been mide well and the strong by Paine's Celery Compound that the physicians of these institutions were unable to cure by the ordinary means. To-day, this grand curing work is still gromment of our public places, and no other medicine will be tolerated but Paine's Celery Compound, which shows the esteem and confidence in which the medicine is held. Dae of these noted institutions that has given testimeny for Paine's Celery Com-pound is the immense conventiol efforts Montreal, and known as the 'Convent of the Holy Names.' The ladies of this house write as follows: We feel it a duty to add our testimony in favor of your 'wonder-working' Paine's Celery Compound. Many sisters, suffering from debility, dyspepais, sleeplesmes and indigestion, have been completely relieved atter taking it. We shall strongly recommend its use in all our houses as the best medicine to re-store health, and give tone and vigor to the nervous system.' THE AET OF SWIMMING.

To merely push one's arm through the water or kick one's legs is not sufficient, for the reason that, it is not properly per- No. 3 formed, what should be a propelling force is neutralized by a species of backward

movement; hence it is a common thing at No. 9 Cures Headache.

GENTLEMEN .- During the winter of

By to swam, who, when attempting this feat, put themselves in vigorous action, but have no greater rate of headway than two or three feet in a minute. When such a person is, for any reason, carried by a tide or current out of his or her depth, if aid is near at hand, the ability to keep above water may be all that is needed for eafety; but if, on the other hand, indepen-dent personal headway has to be made, strength may readily be archauted hofem strength may readily be exhausted before the point of satety is reached. It should by clearly borne in mind by

those who wish to acquire the art of swimthose who wish to acquire the art of swim-ming that the mere movement of the arms and the kicking of the legs do not furnsh in any marked degres the power for pro-pulsion. The movement of the arms is intended primarily to support the head and prevent it from s nking, at least to the ex-tent of the mouth and nostrils, below the sufficient of the mater. The most skilled As Well As From Prisurface of the water. The most skillful swimmer, who lies in the water with his legs rightly extended and endeavors to self forward with his arms, can make but little progress, while, on the other hand, where the arms are not used t all, as in the case of swimming while

lying on the back, forward movement is made almost as rapidly as it would be if the arms were employed. What is needed, then, is the knowledge of how to an ensure the state of the state o

What is needed, then, is the knowledge of how to properly use the legs. The first movement in the stroke should be when Da these are held straight together, and are then well drawn up by bending the knees, Pic made by the immates, soores of the letters would prove interesting and entertaining. In institutions like those referred to, where hundreds are cared for every year, all the common ills and discass of every day life are found, and many, hundreds have been mide well and strong by Paine's Celery Compound that the physicians of these in thus or the same size of every and confidence in which the physicians of the ordinary means. To-day, this grand curing work is at going on in many of the largest and more prominent of our public places, and no other modicine will be tolerated but for genter in the stroke ahould be thrust dideways, as far as the legg will example the interest of the largest and more prominent of our public places, and no other modicance in which the medicine hald. Dae of these noted institutions that has given testimeny for Paine's Celery Compound, which shows the estem hold. Dae of these noted institutions that has given testimeny for Paine's Celery Compound, which shows the estem from debility, drynepsia, alegplesaness and indigestion, have been completely related after taking it. We feel it a dny to add our testimony for debility, drynepsia, alegplesaness and indigestion, have been completely related after taking it. We stall strongly recommend it use all our houses as the best medicine to re-store heall strongly recommend it use all our houses as the best medicine to re-store heall strongly recommend its use all our house sation the case of these who it was said could swin, justifies call-ing attention, particularly in the case of these who it was said could swin, justifies call-ing attention, narticularly in the case of these who baths at our seashore recorks will fue proper instruction in swimming. Any ore who baths at our seashore recorks will fue aver the water, and to make what the hikity to bold the mesters of tows with the strong best with the method, it will on to batt hese to, don indeed, possess the above the water, and to make what the hikity to bold the mesters for tows in ant co

think to be the proper movements for swimming, but who in fact, do not possess in any marked degree the power of making No. 1 Cures Fever. No. 2 Worms. Infants' Disea No. 4 Diarrhea. cause they have tried it and been

cured. One of them was from Mr. J. Gillan, B.A.; 39 Gould Street,

Toronto. Read how he writes:

GRNTLEMEN, --During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success formook me, and all my efforts were in weather. Ambition, energy and success for sook me, and all my efforts were in wain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appe-tite was gone, and the days and nights passed in unhappiness and restlessness For some months I tried doctors' and patent medicines of very description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I fait much better, and when the fifth bottle was finished I enjoyed health is the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B.B. to all poor suffering humanity who wellow from impure blood, which is the baging and east of all discasses.⁶
