AMUSEMENTS

Schools Open On September Sixth

Tenders for New School Building on Newman Street Open Today.

Tuesday, September 6th, is set as the date of the opening of the city schools for the fall term by the Board of School Trustees at their regular monthly meeting last night. A motion was put and carried that tenders for the proposed new school building on Newman street be opened at a joint meeting of the building and finance committees to be called for that purpose this afternoon; and further, that the meeting be given power to act.

Mentally Deficient Children

In reply to a communication from the Board of Health requesting some action in regard to the mentally deficient children in the schools, it was decided that a special committee of three be appointed to determine the Board of Health's prerogatives and powers in this matter.

A petition signed by twenty citizens requesting that the Centennial playgrounds be closed, was referred to the playgrounds association. Trustee George E. Day, acting as chairman in the absence of his Honor Chief Justice McKeown, recently appointed chairman of the board in succession to Dr. A. F. Lacey. Last night's was the first regular meeting of the board since his appointment.

The other members of the board present last night were: Trustees Michael Colli, Allan A. McIntyre, Isaac Nagle, E. R. W. Ingraham, Dr. H. S. Bridges, H. Coby Smith, and P. D. Lewin and G. Herbert Green.

Applications for appointments to the teaching staff received from A. V. Brooks, of St. John, and Della Kralus, of Fredericton, were referred to the teachers' committee.

Applications from Mr. Evans in regard to the painting of the flag poles and fire-escapes of the west side schools, and an application from W. J. McMillan for a position as a janitor, were referred to the buildings committee.

Board of Health's Resolution

A copy of a resolution passed by the Board of Health was submitted to the board. The resolution requested that the Board of School Trustees more fully consider the matter of securing quarters for the teaching of mentally deficient children, and that teachers properly qualified for teaching the same.

Dr. Bridges stated that he, in company with Dr. Emory, had spent all the morning examining text books of children reported by the medical officer of schools as being mentally deficient. Of the twelve cases reported, there was only one where they considered required special training. They did not consider any of the others feeble-minded. Some of them were retarded.

Trustee Lewin thought the school's medical officer had no power official to determine whether students were, or were not, mentally deficient. He thought the board should investigate its responsibility under the Health Act, and not the individual pupils.

Doctors' Opinions Differ

Trustee Nagle thought it was the board's duty as human beings to protect the children placed under their care. The chairman of the board, as mentally deficient would be today, and the child found mentally deficient by the schools, these prerogatives and powers in regard to mentally deficient children in the schools, and that the committee report back to the board.

The chairman of the board, the superintendent and Trustee Lewin were appointed members of the committee.

Close Centennial Playgrounds

A communication signed by twenty citizens residing in the vicinity of the Centennial playgrounds was received, praying that the board close the playgrounds for the summer months, on the grounds that the grounds were not suited to the purpose and were a nuisance to the residents of that vicinity, and the cause of considerable destruction of property for which adequate compensation could not be recovered.

Trustee Day took exception to the statement that the playgrounds Association was responsible for destruction of property. He was sure that some occurred while the association had charge of the grounds, and did not think they should be held accountable for any that might occur at any other time.

Trustee Nagle said that the twenty names signed to the petition did not consist of five per cent. of the residents of the neighborhood. The playgrounds association considered the grounds suitable for the purpose, and thought that the petitioners should take their grievances before that body, especially in view of the fact that the school board had given the playgrounds permission to use the grounds during the summer months.

A motion was put and carried to that effect.

TORONTO WOMAN TO ATTEND CONVENTION

Miss Mary MacMahon, president of the Toronto Business and Professional Women's Club, has accepted the invitation of the American National Federation of Business and Professional Women's Clubs to attend their annual convention to be held at Cleveland, July 19-23.

So far there are no indications of similar Canadian organizations with the American Federation, which includes some 150 individual clubs, in the fall, it is expected that Canadian Federation will be formed and there is the probability that eventually the Canadian Federation may affiliate with their American cousins.

HALIFAX PRINCIPAL NOW IN TORONTO

Miss Nutt, principal of the Victoria School of Art, Halifax, is at present in Toronto assisting Arthur Lacey, vice-president of the Ontario School of Art, in the summer course for teachers.

Miss Nutt, an English woman, was a fellow student with Mr. Arthur Lacey at the Sheffield Art School, and followed him in the principalship of the Victoria School of Art, Halifax, an interesting lecture in St. John before the St. John Art Club.

PRAYER FOR RAIN USED IN TORONTO

The Bishop of Toronto requested his clergy to use at all services on Sunday last the appointed "Prayer for Rain" in view of the continued heat and its menace to health and to the fruits of the earth.

The following is the text of the prayer referred to:

"O God, Heavenly Father, who by Thy Son Jesus Christ hast promised to all them that seek Thy Kingdom, and the righteousness thereof, all things necessary to their bodily sustenance, send us, we beseech Thee, in this our necessity, such moderate rain and showers, that we may receive the fruits of the earth to our comfort and to Thy honor, through Jesus Christ our Lord.—Amen."

Beauvais' Letters Are In Evidence

Millionaire Wins a Point in His Legal Action Against Wife.

Poughkeepsie, N. Y., July 11.—Daniel J. Gleason, referee in the St. John divorce case, handed down a decision today admitting in evidence two letters offered by the attorneys and not thought to be known as exhibits "B" and "C," alleged to have been written by Fred Beauvais to Mrs. Anne U. Stillman, the defendant.

Trustee Lewin thought the school's medical officer had no power official to determine whether students were, or were not, mentally deficient. He thought the board should investigate its responsibility under the Health Act, and not the individual pupils.

The chairman of the board, the superintendent and Trustee Lewin were appointed members of the committee.

Close Centennial Playgrounds

A communication signed by twenty citizens residing in the vicinity of the Centennial playgrounds was received, praying that the board close the playgrounds for the summer months, on the grounds that the grounds were not suited to the purpose and were a nuisance to the residents of that vicinity, and the cause of considerable destruction of property for which adequate compensation could not be recovered.

Trustee Day took exception to the statement that the playgrounds Association was responsible for destruction of property. He was sure that some occurred while the association had charge of the grounds, and did not think they should be held accountable for any that might occur at any other time.

Trustee Nagle said that the twenty names signed to the petition did not consist of five per cent. of the residents of the neighborhood. The playgrounds association considered the grounds suitable for the purpose, and thought that the petitioners should take their grievances before that body, especially in view of the fact that the school board had given the playgrounds permission to use the grounds during the summer months.

A motion was put and carried to that effect.

Trustee Day reported the receipt of a deed transferring the Newman street property to the board.

Trustee Smith stated that the finance committee had with the \$17,500 from the sinking fund, acquired \$25,000 in mortgages and City of St. John bonds. This action was confirmed.

It was moved that the superintendent and the trustees to the west side

schools be empowered to have a room in the west side orphanage prepared as a school-room for the children thereof, the room to be ready for the opening of the schools in September.

The motion was carried, but gave authority to consider the decision. Trustee Lewin thought the board should take action so as to have direct control over all school-rooms.

Trustees Green and McIntyre thought the same policy should obtain in all school-rooms not held in all orphanages in the city.

The finance committee was given authority to issue debentures to the amount of \$25,000, the sale of same to be advertised on August 1. The meeting then resolved into a teachers' committee.

Trustee Smith stated that the finance committee had with the \$17,500 from the sinking fund, acquired \$25,000 in mortgages and City of St. John bonds. This action was confirmed.

It was moved that the superintendent and the trustees to the west side

REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

To a man, the sweetest part of a kiss is looking forward and hoping for it; to a woman, the sweetest part is looking backward and dreaming about it.

Lore is like a cold in the head. A man will fight it and deny it to the very last minute, but he feels a thousand times better, when he finally gives up the struggle and frankly succumbs to it.

The surest way in the world to make a man do anything you want him to do, from loving you to leaving you, is to tell him that he OUGHT not to do it, that he MUST not do it, or that he CANNOT do it.

Divorce is becoming so simple and advanced in its methods, that soon it will be merely necessary for a society woman to postcard the Court to send her up two or three on approval.

The world may be getting more sophisticated and cynical, but "the old girl" seems to go as well as ever, whether it is offered to men in the form of stock, or to women in the form of flattery.

Before marriage, it's a woman's "cunning, little baby-ways" that cause her attraction for a man; after marriage, it's her "feeble-minded nonsense" that drives him to distraction.

The shallower a man's love, the more it bubbles over into eloquence; when his emotions go deep, words stick in his throat, and he has to be hauled out of him with a derick.

Nothing makes a small boy so indignant as to be patted on the head and called "a good little fellow," and nothing delights him so much as to be frowned at and called "a wicked little devil." And he doesn't change much when he grows up.

Some women put men on pedestals; other women use them as pedestals to stand on, so that they can attract other men.

Claim Gallon Can Was Small

Allege It Held Only a Pint and a Half Because of False Bottom.

Fredricton, N. B., July 11.—One of two Moncton men who are alleged to have sold to the foreigners at the Min to mines containers with bottoms that were supposed to hold a gallon of alcohol but which in reality contained not more than a pint and a half of alcohol has been arrested and his comrades in the enterprise is expected to be picked up at almost any hour.

The man already arrested is Fred Doland, of Moncton, and his partner is said to be from the same place. Prohibition inspector Fraser Saunders arrested Doland at Moncton and brought him to Minto, where he left a deposit of \$200 for his appearance in court next Friday. The inspector returned here this morning and reported to Chief Inspector Hawthorne that the second man would probably soon be caught.

WORDS.

Of all the words I ever see, This is the worst Of all to me:

DETOUT.

Of all the words I ever hear, These are the best That hit my ear:

DINNER'S READY.

Of all the words That hit my eyes, These are the two I most despise:

PLEASE REMIT.

No, Henrietta, the porter on a sleeping car isn't called a quartermaster, yet he is.

Mostly Guff.

Early to bed and early to rise, May make a man healthy, wealthy and wise;

The milkman, the cop, the farmhand so rough, Are all good examples of this sort of guff.

—Pats and Knocks.

The early bird may catch the worm, But this will never make us squirm Out of our bed at break of day, For what's a worm worth, anyway

Fine English Story At The Imperial

"Lady Rose's Daughter" With Elsie Ferguson Creates Splendid Impression.

Elsie Ferguson's latest appealing Paramount picture, "Lady Rose's Daughter," which is being shown at the Imperial theatre again today, is a superb production of Mrs. Humphrey Ward's celebrated novel of the same name which scored a world success several years ago.

The story, which is regarded as one of the best ever written by Mrs. Ward, was first published as a serial in Harper's Magazine and later it appeared in book form. It was dramatized by George Fleming and produced in London. Under the management of Charles Frohman, "Lady Rose's Daughter" was presented with enormous success at the Empire Theatre in New York, with Fay Davis in the title role.

The heroine of the story is Julia Le Breton, an orphan girl who is born out of wedlock. Her misfortune is concealed from her face and she has an interesting love affair. The story treats of heredity in an entertaining manner and in its development, Elsie Ferguson plays three roles, those of the grandmother, mother and daughter.

The screen adaptation was made by Hugh Ford, David Powell, Holmes E. Herbert and Ida Waterman have important parts. Imperial patrons enjoyed it immensely yesterday, as well as those of the grandmothers, mother and daughter.
