SATURDAY EVENING, MAR. 29, 1873. Carving Victoria County.

It is very much to be regretted that a najority of the House of Assembly should see a fancied necessity for dividing toria County, thus increasing the cost of local government and necessitating the erection of new public buildings. The principal reason given for the division, the French being in one end of the County and the English in the other, is the best reason in the world for not making the division at all. It is highly esirable that the two races should be blended into one as soon as possible, and the recognition of the principle of separation will do a great deal of harm. The only real reason for this division is the lesire of Mr. Tibbits and his friends to

create a pocket constituency for themselves. They fear that the French majority may insist on sending two Frenchmen to the Legislature next session, and Strict attention paid to Jobbine and the majority of the House has listened REPAIRING. If it was thought impossible to carry on the public business with two Frenchmen from Victoria the House might

THE President and Directors of the above named institution, in order to liquidate the liabilities of said building, and to render it worthy of the purposes for which it was intended, as a look to the Legislative Council to reject the bill. Mr. Jones, Mr. Hanington and other members of that body often point with pride to the manner in which that body can rise above mere local considerations, and ephemeral public demands, and we look to it for an example now. The members who voted for the bill did not believe in it and don't want it to become law. It is the most insincere vote 30.000 Dollars in Cash cast this session in the House of Assembly. We can form no idea of the motives of the Government in permitting 1,000 this thing, but suppose they didn't want 1,000 to disoblige a faithful follower like Mr.

The other night the reporters left the gallery in a bady, when the West Peterboro's election case debate was at its height, to accompany the remains of Mr. Gregg to the railway station, and our ingenuous journalist and statesman insinuates that they left to avoid listening to a speech from one of his colleagues. The Rev. G. M. Grant's Lecture. If any stayed away from the lecture for fear of Mr. Grant not being present, they missed a treat wilfully, and must be content to know that they have not heard one of the best lectures ever given in the Institute. It was about the North West, our North West, and contained facts and ideas gathered in a journey across th continent, on Canadian soil.
