

S.O. 43

taunts are demeaning to the conduct of this Chamber. I therefore move, seconded by the hon. member for Winnipeg-Assiniboine (Mr. McKenzie):

That members of this House refuse to take the Prime Minister's actions seriously as it appears he is saying, "Two of you hold my coat and one of you hold me."

Madam Speaker: The hon. member for Bow River.

AGRICULTURE

CONDEMNATION OF PROPOSED CANAGREX CROWN CORPORATION—MOTION UNDER S.O. 43

Mr. Gordon Taylor (Bow River): Madam Speaker, Canada's Liberal federal government has no credibility left at all. Canagrex was introduced as a federal co-ordinating body to increase Canada's agricultural exports, but Bill C-85 goes way beyond this function. Wide sweeping powers will permit this corporation virtually to control and take over agriculture, even to the point of telling farmers what they must grow, to say nothing about eliminating the existing export organizations in Canada and, if passed, as stated in *Macleans* magazine this Crown corporation could grow "like a cancerous cell" and "multiply and eat away at the country's food industry". Therefore I move, seconded by the hon. member for Medicine Hat (Mr. Hargrave):

That this House deplores this back-door method designed to socialize the farms of this country and demands that the bill be axed along with the responsible minister and the government.

Madam Speaker: Is there unanimous consent for this motion?

Some hon. Members: Agreed.

Some hon. Members: No.

HEALTH CARE

IMPACT OF USER FEES ON PROVISION OF SERVICES—MOTION UNDER S.O. 43

Mr. David Orlikow (Winnipeg North): Madam Speaker, I rise under the provisions of Standing Order 43 to move a motion arising from discussions being held between the Minister of National Health and Welfare (Miss Bégin) and her provincial counterparts.

Whereas user fees charged Canadians by hospitals or doctors, or opting out by doctors from provincial medical insurance plans, violate the promise of medicare to guarantee Canadians from all income levels free access to a comprehensive range of prepaid health services, and whereas the reduction of federal contributions to hospital and medical insurance plans through cuts in transfer payments has led to the increasing by the provinces of user-pay fees, and to an increasing number of doctors opting out in order to increase their income

over what they receive from the provincial medical insurance plans, I move, seconded by the hon. member for Selkirk-Interlake (Mr. Sargeant):

That this House call on the government to return to the former system of sharing the cost of hospital and medical insurance plans and to work with the provinces so that user fees and opting out by doctors can be brought to an end.

Madam Speaker: Is there unanimous consent for this motion?

Some hon. Members: Agreed.

Some hon. Members: No.

ENERGY

CALL FOR TABLING OF AGREEMENTS ON BEAUFORT SEA EXPLORATION—MOTION UNDER S.O. 43

Mr. Dave Nickerson (Western Arctic): Madam Speaker, on May 10, 1982, the government announced with considerable fanfare that it had concluded six agreements with Esso Resources Canada Limited covering \$600 million worth of oil and gas exploration in the Beaufort Sea. The timing was presumably intended to take the heat off the government for its failures with the Alsands and Alaska gas megaprojects. Whereas it would now appear that no such agreements exist, save for some letter of intent, I move, seconded by the hon. member for Capilano (Mr. Huntington):

● (1410)

That the government either table these agreements if they exist or admit that it has misled both this House and the Canadian public.

Madam Speaker: Is there unanimous consent for this motion?

Some hon. Members: Agreed.

Some hon. Members: No.

EMPLOYMENT

SUGGESTED FEDERAL-PROVINCIAL MEETING ON STUDENT SUMMER EMPLOYMENT—MOTION UNDER S.O. 43

Mr. Tom McMillan (Hillsborough): Madam Speaker, student summer unemployment in the coming weeks is expected to skyrocket to 200,000, or to 16 per cent. This disastrous situation will compel many young people not to return to their education in the fall because they will be unable to pay their tuition, which most colleges and universities are having to hike following federal government funding cutbacks. I therefore move, seconded by the hon. member for Kingston and the Islands (Miss MacDonald):

That the Minister of Employment and Immigration immediately convene a meeting between himself and his provincial counterparts in order to devise a
