Dear Sir:

Mr. Jerome D. Greene, Secretary of the Rockefeller Foundation, has forwarded to me your communication of the 3rd inst. offering your services in connection with the investigation of industrial relations, the direction of which I have undertaken for the Foundation. As I purpose giving some months to planning the work of the investigation, it will not be possible for me for some time to say just what assistance may be required. I shall have pleasure, however, in placing your letter on file for purposes of future reference and meanwhile desire to thank you for your kind offer to become associated with the work of the investigation.

Yours very truly,
