St. Mary's Oct. 3rd

Dear Arthur

Received your kind letter
which is more than I deserve. Many
thanks for it.

I have been home for a month or more.
Was with Archie nearly all summer.
but I am not much use to any body
just at present. as my foot has been
bothering me since the middle of
July. We are in hopes it will soon be
better again.

I was home in June. I don't think I
ever saw any better looking crops than
Edgar had. but the dry weather came
in July. and Edgar's crop did not
amount to much. He is pretty well
discouraged. as he is at a big expense
this year. The little baby was in London
Hospital for eight weeks last winter.
She is fine now is eleven months
old on Monday. and is walking all
over. Edgar would like to give up
farming and learn the undertaking
he has always wanted to do that work.
I am in hopes he will be able to do it
