

P R E F A C E .

The encouragement accorded to the Quebec Directory last year has induced the proprietor to issue it again this year, with the full intention of republication annually.

The permanent character of the work will enable parties to give information of any alterations in their residences, businesses, &c., as they occur, and thus make the work more complete and reliable.

The proprietor trusts he will meet with the same support and encouragement as last year, and some allowance for any little errors that the hurry of quick publication may have caused.

24½ St. John st. without.

July, 1861.
