

You Get the Biggest Engine Value For Your Money When You Buy an Alpha Gas Engine

YOU should measure the value you receive for the money you pay for a gas engine by what the engine will do for you.

Possibly you can buy an engine for less money than you can an Alpha, but you cannot buy an equal amount of good service in any other engine for as little money.

In the Alpha you get for your money more years of service, the lowest fuel cost, exceptional freedom from the need of repairs and the easiest engine to operate and care for.

The Alpha is a simple engine, with plenty of power, perfectly controlled by a governor that keeps it running steadily and smoothly under light, heavy or varying loads. This engine has no complicated, delicate parts to require constant attention—not even batteries. It starts and operates on a single low speed magneto. You can use either kerosene or gasoline for fuel.

You need a gas engine on your farm. In a very short time the saving resulting through its use would pay for an Alpha. Buy an Alpha now. That is the quickest and best way to save the money that is to pay for the engine. Ask for a copy of the Alpha Engine catalogue. It contains a lot of valuable information about engines.

Made in eleven sizes, 2 to 28 H. P. Each furnished in stationary, semi-portable or portable style, and with hopper or tank cooled cylinder.

From cover to cover it is full of helpful information. It describes and illustrates the Frost & Wood Line, and these descriptions alone are vitally useful as they tell what you can expect and GET from Frost & Wood quality implements.

Every Frost & Wood implement is worthy of your complete confidence. Every one has been designed by experts, improved by experts in actual use, and every implement is guaranteed to have passed our own tests which are far more severe than actual use.

Implements that last—that help the farmer make more money, get bigger crops and better crops, with more and more of the human-labour element left out—that's the Frost & Wood aim.
