# Cairnbrogie Champion Stud

Is a Mecca where all Clydesdale Fanciers  
Meet on this Continent in quest of their

IDOLS and IDEALS in

# CLYDESDALE PERFECTION

The story of the Showyard Records of our Clydesdales is familiar to  
all, and Approached by none on this side of the Atlantic.

At the 1904 Industrial held in Toronto, which is conceded to be the most attractive show  
of its kind in America, our recently imported Clydesdales were awarded prizes as follows:

Stallions—4 years old and over.....1st and 2nd Prizes  
Stallions—3 years old and under 4.....1st and 2nd Prizes  
Stallions—2 years old and under 3.....2nd Prize  
Stallions—1 year old and under 2.....1st Prize  
Mares—3 years old and under 4.....1st Prize  
Mares—2 years old and under 3.....2nd Prize  
Group of Ten Head—Any age or draught breed.....1st Prize  
Sweepstake Stallion—Any age.  
Sweepstake Mare—Any age.  
On ten head we won five 1sts, four 2nds, three grand champions.

If further reasons are requested as to why the public generally should regard ours as  
the Premier Clydesdale Stud of this continent, we will state that in the Canadian-bred  
classes we won first in his class and champion honors on McAirle's Best (4320), while the  
get of our Matchless Macqueen won five firsts, one second, and one third, first for two  
animals under two years old, the produce of one dam, and first for family group under  
two years old. This is now the fourth year in succession that this much coveted award has  
been given to the get of our invincible son of McGregor (1487), who, in turn, was the most  
famous son of the renowned Darnley (222).

A personal examination of our Clydesdales is cordially invited. Correspondence with  
intending buyers solicited.

### QUESTIONS AND ANSWERS. Miscellaneous.

#### TANNING DOG SKIN.

A reader asks where he can get a dog's  
skin tanned, or how he can do the job  
himself. It has been our experience that  
it is best to give such work to the tanner-  
ies, which are plentiful over the country.  
One such, that makes a specialty of cus-  
tom work, is located at Delhi, Ont.

#### BOOK ON APIARY.

Where can I get a good bee book?

D. McG.

Ans.—Langstroth, on the Honey-bee,  
\$1.40 through this office, is one of the  
best; also A B C of Bee Culture, \$1.25,  
is very good.

#### BOOKS ON FEEDING AND FERTILITY.

Have you any good books on feeding,  
or the value of foods, or have you any-  
thing on fitting show cattle of beef  
breeds. If you have not anything of  
this kind, do you know where I could  
get it? I would also like to get some-  
thing on the fertility of the soil, or pre-  
paring the ground for crops. Please  
give price. S. H.

Ans.—Feeds and Feeding, \$2.00, and  
The Fertility of the Land, \$1.25, through  
this office, would answer your require-  
ments; or, if you wanted a smaller work  
in one volume. Successful Farming, by  
Wm. Rennie, \$1.50, would be a good book  
to read.

#### REGISTERING DRAFT HORSES.

1. What are the qualifications necessary  
for entry in the Dominion Draft Horse  
Book?  
2. Would a mare that has three  
straight imported crosses, the fourth a  
Canadian-bred registered stallion, be eli-  
gible?  
3. What are the qualifications for entry  
in the Canadian Clydesdale Studbook?

D. M.

Ans.—1. Four crosses by registered  
sire, Clydesdale or Shire, imported or  
Canadian bred.  
2. Yes.  
3. Stallions having five top crosses of  
registered Clydesdale sires with their  
dams on record, and mares having four  
top crosses, in each case by sires re-  
corded in the Clydesdale Studbook of  
Canada.

#### DRAFT HORSE AILING.

I have a young draft horse that has  
been put to town work too soon. The  
result is contracted tendons in hind legs,  
causing him to walk on his toes. Will  
you advise the best treatment? S. F.

Ans.—Have the horse brought in. The  
treatment required will be the application  
of a high-heeled shoe to give relaxation  
to the tendons, and a long period of rest.  
If this is useless, in chronic cases where  
the shortening is likely to be permanent,  
the operation of tenotomy, or dividing the  
back tendons, must be performed, in  
which case the horse will require to be  
cast and the tendons divided above the  
fetlock joint. In some cases, after the  
operation, the heel cannot be brought to  
the ground on account of adhesions  
about the fetlock and pastern joints.  
These require to be broken down by the  
operator. The after treatment is simple  
if the operation has been properly per-  
formed. The wound should be bandaged,  
and kept moist with tepid water, and the  
head tied up to the rack for two or  
three days until the wound has healed. In  
a few days after the operation, if no ad-  
hesion exist, the heel of the foot will be  
brought to the ground, and when made to  
move the toe slightly turned up. The  
objections to the operation is that the  
formation of new material to unite the  
divided ends of the tendons may gradu-  
ally contract and the limb resume its  
former appearance. This tendency is  
more observable on the hind legs, and it  
has to be overcome by a special toe be-  
ing applied to the shoes of the hind feet.  
This treatment may arrest the contrac-  
tion, but not necessarily cure it. In any  
case, a V. S. would require to perform  
the operation.
