It Plays Itself

GOSSIP.

Mrs. Ida Tilson, of West Salem, Wis., for many years a regular contributor on poultry subjects for the "Farmer's Advocate," during the present month is giving a special course in poultry farming at the Missouri Agricultural College, Columbia.

In Hamilton, Ontario, one day last summer a bright little woman, accompanied by some eight or ten children of various sizes and ages, boarded a street car. "Are these all yours, Madam, or is it a picnic?" asked the conductor. "They're all mine," replied the little mother, "and it's no picnic."

When Mrs. Grover Cleveland was Miss Frankie Folsom, the prettiest girl in Wells College, she had as teacher in English composition Miss Myra Reynolds, now a professor at the University of Chicago.

Miss Folsom handed in an essay one day in which occurred the reprehensible word "pants."

Miss Reynolds promptly crossed out the offending term and wrote in the margin: "Gents wear pants, gentlemen wear pantaloons."

The correction was obviously absorbed by the fair pupil. A few years later, when Miss Folsom, as Mrs. Cleveland, had become the first lady in the land, her former teacher received one day an imposing-looking letter from the Executive Mansion, Washington. On opening it a sheet of beautiful note-paper bearing the monogram and crest of the President's wife appeared, together with Mrs. Cleveland's card. On the centre of the sheet was pinned simply a newspaper clipping which read:

"Mamma," said little Emerson High-life, of Boston, "are the Gordon Brownes and the De Whitneys and the Burne Smithsons all gone away for the summer?"

"Yes, dear. And why?"

"Then, please, may I say 'pants' till they get home?"—[Gertrude Cobb, in Lippincott's.]

RECORDS OF GUERNSEY CATTLE.

The best year's milk record for a Guernsey has been broken by Sultana of Paxtang 8732, giving 14138.29 lbs. Her owner, Mr. S. M. Shoemaker, Stevenson, Md., takes pride in her. She was first admitted to the Advanced Register as No. 28, with a year's record of 8863.52 lbs. milk and 365.04 lbs. butter-fat. In justice to this record it should be said that she was dry one month during this year's time. Mr. Shoemaker believed she was capable of doing better work and accordingly she was immediately started on another year with the following result: 14138.29 lbs. milk; 4.25 average per cent. fat; 590.34 lbs. butter-fat.

This is the best yearly milk record of any Guernsey cow to date, and is the fourth best butter-fat record among Advanced Register cows. It should be mentioned that this record was commenced when Sultana was 11 years 2 months old. During these two years her milk has been tested by the Md. Agr. Exp. Station, and supervised by that Station in accord with the requirements of the Register. It is interesting to note that the average per cent. butter-fat for the two years comes the same—4.25. Sultana's feed and care was similar to that given the rest of Mr. Shoemaker's herd. The grain in use was a mixture of 12 parts bran, 8 parts gluten feed, 2 parts flaxseed-meal and 2 parts cottonseed. Sultana was fed 6, 8, 10, 12 or 14 lbs. daily of this mixture according to the amount of milk she was giving, the great part of the time she received 12 or 14 lbs. daily. In summer, the rough feed was 5 to 7 lbs. clover hay, 10 to 15 lbs. silage and about 25 lbs. green feed (soiling crops). In winter, 7 lbs. hay, 30 to 35 lbs. silage and 5 lbs. beets were given. She was allowed in the exercising yards every day except during cold rains.

The New England Farmer says: "The Holstein-Friesian and Guernsey men are steadily pursuing a system of testing their cattle, which is far more conclusive and satisfactory than any test that could be made amid the excitement of a great World's fair."—[Wm. H. Caldwell, Peterboro, N. H.]

On one of the branch lines in Western Ontario, during the stormy period of last month lasting about four weeks, the express was one day tearing away at the rate of six miles an hour when all of a sudden it stopped altogether. Most of the passengers did not notice the difference; but one of them happened to be somewhat anxious to reach his destination before old age claimed him for its own. He put his head out of the window, to find that the cause of the stop was a cow on the track. After a while the train continued its journey for half an hour or so, and then—another stop. "What's wrong now?" queried the impatient passenger of the conductor. "A cow on the line." "But I thought you drove it away?" "So we did," said the conductor; "but we've caught up with it again."
