FELLOWS' COMPOUND SYRUP OF HYPO-PHOSPHITES

FOR THE RELIEF AND CURE OF ALL WASTING DISEASES, Consumption, Bronchitis, Asthma, General Debility, Brain Exhaustion, Chronic Constipation, Chronic Diarrhoea, Dyspepsia, or Loss of Nervous Power. It is unequalled in the treatment of Palpitation of the Heart, Trembling of the Hands and Limbs, Loss of Appetite, Energy or Memory.

It acts with vigor, gentleness and subtlety, owing to the exquisite harmony of its ingredients, akin to pure blood itself. Its taste is pleasant, and its effects permanent. Its first apparent effect is to increase the appetite. It assists digestion, and causes the food to assimilate properly—thus the system is nourished. It also, by its tonic action on the digestive organs, induces more copious and regular evacuations. The rapidity with which patients take on flesh while under the influence of the Syrup, of itself indicates that no other preparation can be better adapted to help and nourish the constitution, and hence be more efficacious in all depression of spirits, shaking or trembling of the hands or body, cough, shortness of breath, or consumptive habit. The nerves and muscles become strengthened, and the blood purified.

READ WHAT THE INVENTOR, MR. FELLOWS, HAS TO SAY ABOUT HIS SYRUP OF THE HYPOPHOSPHITES. In the summer of 1864, I was suddenly affected by a copious expectoration of mucous-purulent matter. I had been declining in health for some months, and, being exceedingly nervous, the symptoms caused alarm. As my business was that of a dispensing chemist, the shop was constantly visited by medical men, all of whom tendered their advice. During 1864 and 1865 my chest was examined by ten first class physicians, some of whom pronounced the case Bronchitis; some, not wishing to give alarm, or unwilling to venture an opinion, gave no decision; some stated unequivocally that I had Tubercular Disease of the Lungs, and located the trouble where the pains were felt. By professional advice, I used, in turn, horse-back exercise, country life, eggs and ale in the morning, tonics, Bourbon whiskey, cod-liver oil, electricity, bar, and various inhalants, but the trouble increased. Expectoration became more profuse and offensive. Night-sweats set in. Cold shills, diarrhoea, dropsy, cough, blood-streaked expectorations, loss of sleep, loss of appetite, loss of memory, loss of ambition, accompanied by general prostration, showed themselves. Under the microscope the blood was found to contain but a small portion of vitalized corpuscles; the heart's action was feeble; the pulse intermittent; the stomach could not digest properly, so that flatulency and acidity was the result. Finding the symptoms indicated Consumption, I determined to use every effort to stay its progress, and, if possible, to cure it. I selected the most powerful tonics and moderators, and combined them with the vital constituents of the human body. For months I endeavored to accomplish them before my efforts were crowned with success. I cannot speak too plainly or too strongly of the effects produced, and the benefits I derived from the composition.

At first my appetite increased; the expectoration became easy, digestion improved; the bowels became more copious and less frequent; cold shills ceased; night-sweats lessened; I gained in weight; the hacking cough left me; refreshing sleep returned; my spirits became buoyant, the mind active and vigorous. I continued taking the Syrup month after month; but owing to the damp, foggy climate of St. John, my recovery was necessarily slow, although I could observe a gradual return of strength for three years, during which time I continued taking the remedy. My present weight is one hundred and forty-eight, being thirty-eight above my usual. I have no symptoms left deserving notice. The only notable sign during twelve months was the expectoration. Now that he stopped, and I consider myself well. The reader may ask, How do you know your difficulty has proceeded from ulcerated or tubercular lung? I answer, In the most certain of all modes for ascertaining. In March last I coughed from the right lung a piece of PHOSPHATE OF LIME, half the size of a pea, which could have come from no other place, and which the highest authority in Lung Disease (Lavoigne) states is the result of tubercle, which has been cured. Added to this, I had the leaden-colored, purulent, blood-streaked expectoration, and the opinion of one of the best diagnosticians in the country. I believe I have experienced all the symptoms incident to the two first stages of Consumption, and have successfully combated them, so that I do not despair of any case where there is left sufficient lung tissue to build upon. I can only add that the mere monetary consideration of increased sales would never induce me to publish this report, but a sincere sympathy for the poor Consumptive, with whose misfortunes I believe it vainly to trifle.

SUBSTITUTES!

The public are cautioned against a custom which is growing quite common of late among a certain class of medicine dealers, and which is this: When asked for a bottle of Pain-Killer, they suddenly discover that they are "sold out," but have another article just as good, if not better, which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the Pain-Killer and being compounded of the vilest and cheapest drugs, are bought by the dealer at about half the price he pays for the genuine Pain-Killer, which enables him therefore to realize a few cents more profit per bottle upon the imitation article than he can on the genuine.

FOR SUDDEN COLDS NEURALGIC, RHEUMATIC AND ALL OTHER PAINS IN ANY PART OF THE BODY, PERRY DAVIS' PAIN-KILLER IT CURES ALMOST INSTANTLY.

The Pain-Killer is put up in 2 oz. and 5 oz. bottles, containing of each 20 cents respectively—large bottles are laboratory compound.

From The Canada Educational Monthly, Toronto.—And just here comes in the contrast of the position of the Englishman with that of his kinsman on this side of the Atlantic. He has no "Webster"; no book of an all-satisfying requirement, no one reference work in which he will find all that he may be in quest of, no single quarry that will yield him every one his hand may require the inspection of—such as he may find in the mammoth "Unabridged Webster." Having regard to its issues, its thoroughness, its compactness, and its price, it is an amazing product of literary skill and mechanical workmanship.

There should not be a school in the Dominion, where access cannot readily and constantly be had to it. No teacher, and we might add, no reader of the language, can afford to be without it, for it is a monumental work, a noble tribute to our grand old mother-tongue.

From London Quarterly Review.—On the whole, as it stands, it is most respectable, and certainly the best practical English dictionary extant.

THE BEST REMEDY FOR Diseases of the Throat and Lungs.

AYER'S CHERRY PECTORAL.

In diseases of the pulmonary organs a safe and reliable remedy is indispensable. AYER'S CHERRY PECTORAL is such a remedy, and no other so generally recognized by the confidence of the public. It is a genuine combination of the medicinal principles and curative virtues of the finest drugs, chemically united, of such power as to insure the greatest possible efficiency and uniformity of results. It strikes at the foundation of all pulmonary diseases, affording prompt relief and rapid cure, and is adapted to patients of any age or either sex. Being very palatable, the youngest children take it readily. In ordinary Coughs, Colds, Sore Throat, Bronchitis, Influenza, Clergymen's Sore Throat, Asthma, Croup, and Catarrh, the effects of AYER'S CHERRY PECTORAL are magical, and multitudes are annually preserved from serious illness by its timely and faithful use. It should be kept at hand in every household for the protection of the young children, in sudden attacks of Whooping-cough and Consumption, there is no other remedy so efficacious, soothing, and helpful.

Low prices are inducements to try some of the many mixtures, or syrups, made of cheap and ineffective ingredients, now offered, which, as they contain no curative qualities, can afford only temporary relief, and are sure to deceive and disappoint the patient. Diseases of the throat and lungs demand active and effective treatment; and it is dangerous experimenting with unknown and cheap medicines, from the great liability that these diseases may, while so trivially treated, become deeply seated or incurable. Use AYER'S CHERRY PECTORAL, and you may confidently expect the best results. It is a standard medical preparation, of known and acknowledged curative power, and is as cheap as its careful preparation and fine ingredients will allow. Eminent physicians, knowing its composition, prescribe it in their practice. The test of half a century has proven its absolute certainty to cure all pulmonary complaints not already beyond the reach of human aid.
