THE BT LITTER CARRIER

HAS FEATURES THAT SHREWD BUYERS APPRECIATE

Its construction is simpler than any other. Its parts are heavier and more strongly built.

Only the very best materials are allowed to enter into the construction of the BT Carrier.

These features, together with other points of advantage which the BT Carrier has over other makes, have made it famous.

Our new catalogue on the BT Litter Carrier is just out and a copy will be mailed to you free if you send us name and address.

We also manufacture Steel Stalls, Stanchions, Hay Tools, Etc. Write today to:

EUREKA

SANITARY CHURN

There's no comparison between the ordinary wooden churn and the "EUREKA". Barrel is stoneware—top is clear glass.

Besides being absolutely sanitary, the glass top enables you to see how the churning is coming along without opening the churn.

Also made with Aluminum top.

The "EUREKA" is the easiest churn on the market to operate. By tilting back the frame until the weight rests on the wheels, the churn can be quickly and easily moved—while the barrel remain upright.

If your dealer does not handle the "EUREKA," do not take a substitute but write us for catalogue.

CONTESTS SIMPLY PROVE IHC TRACTOR SUPERIORITY

ALTHOUGH IHC Tractors have proved their superiority in the official contests at Winnipeg and in Europe for the past several years—and although these victories are an indication of IHC strength, economy, and reliability—we do not ask you to judge IHC tractors on these records alone.

The IHC record of actual service in the hands of thousands of farmers throughout the world, is the best reason why you should decide on an IHC. It is this record of service which proves the all-round perfection of design, material, and workmanship used in the construction of IHC tractors for

Gasoline and Kerosene

The official contests showed the world that IHC tractors plow for less money per acre and plow more acres per hour, than any other gasoline tractors entered. But IHC owners already knew this. The contests simply proved IHC superiority. IHC tractors are dependable. They work day and night, 24 hours a day if necessary, and year after year. They plow, harrow, haul, seed, harvest, husk, shred, saw, and do all the power work on the farm.

Look into the efficiency and superiority of the complete IHC line, which includes Tractors in 12, 15, 20, 25, and 45-horse power, in several styles; and also a complete line of horizontal and vertical engines, stationary or mounted on skids or trucks—air or water-cooled—1 to 50-horse power.

Ask the IHC local agent for catalogues and full information, or, if you prefer, write nearest branch house.
