

THE FARMERS' LIBRARY

Every farmer who wants to keep abreast of these stirring times must read, study and think. The day of haphazard methods on the farm have passed away. The successful farmer to-day is the one who knows most about his business and employs up-to-date methods. The fall season with its long evenings is rapidly coming on. The farmer who devotes his leisure hours to study is equipping himself to make his labor more profitable and his home happier. Western farmers are coming to the front more rapidly than anywhere in the world. Thousands of them look to THE GUIDE for advice in their work and information is continually being given. It is in response to the demand of our readers that THE GUIDE has decided

to open a book department. We have made arrangements with the publishers of a large number of books to supply them to our readers. These books will be sent to our readers upon receipt of the price. This department will be conducted for the benefit of our readers and new books will be added to our list from time to time. If our readers want to buy their books from us we will endeavor to supply their wants. We do not keep the books in stock and it will require about ten days to fill an order but all orders will receive the most prompt attention. A FARMERS LIBRARY, IF CAREFULLY SELECTED AND WISELY USED, IS HIS MOST VALUABLE ASSET.
