Why St. Paul's is Crumbling. The crumbling of the supports of St Paul's Cathedral is not, as many peo Pau's Cathedral is not, as many peo-ple seem to imagine, a trouble of re-cent date. It has, indeed, been brow-ing for 200 years. The traffic on the streets and the tides of the Thanks-which cause the foundations of the edifice to move have both played their part, with time, in the work of mination.

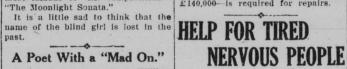

When one comes to consider the gigantic weight of the structure, and particularly of the dome it seems a miracle that the edifice has not long since shown sign; of meeting with disaster. It is more correct, however, to speak of the "domes" of St. Paul's. for there are really three-two within

Pigs Solve Problems.

A pig belonging to an English farm er was sold to a dealer who lived eight miles away. The morning after the sale the pig reappeared in its old sty, having escaped from its new quarters during the night.

The homing instinct is stronger in the pig than in most animals. An in-stance similar to the above occurred at Reading, where a pig traveled fourteen miles back to its old home, after being sold in a local market.

being sold in a local market. Darwin believed the pig capable of developing the sagacity of a dog. For example, a sow belonging to an Eng-lish game keeper, was trained to hunt game, at which it became more expert than most pointers. The fame of this animal spread far and wide, and tempting offers were made to buy it. Records show that pigs in former days were often used as beasts of bur den, while there is at least one well authenticated instance of a pig being employed for rounding up sheep. Perhaps the most curious use to which the species has ever been put was to draw a carriage for an eccentric Vic torian nobleman.

The Herbarium at Kew Gardens ntains nearly 4,000,000 specimens of dried plants, fruits, and seeds, and the library contains some 30,000 vol-umes. About 30,000 specimens are added to the Herbarium every year.

Quick Relief for Rheumatism

Mrs. Bert Young of Filch Bay, Que., writes as follows: "I could not turn over in bed at night. I tried doctors and sent off for medicines which did me no good, but after using three bottles of Minard's my rheumatism left me entirely, and I have never feit it since."

Always keep Minard's handy. **Minard's Liniment**

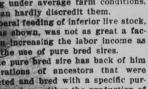

Eruptions On Shoulders, Neck and Face. Itched and Burned.

"My trouble began with red spots breaking out on my shoulders, neck and face. They itched and burned causing me to scratch and irritate the affected parts. The erup-tions scaled over and my clothing aggravated them. My face was dis-figured, and the trouble kept getting

Lydia E. Pinkham's Vegetable Compound a Dependable Help for Mothers

Freip for Mothers Port Greville, Nova Scotia. — "I took your medicine for a terrible pain in my side and for weakness and headaches. I seemed to bloat all over, too, and my feet and hands were the worst. I am the mother of four children and I am nursing my baby—the first one of four I could nurse. I took Lydia E. Fink-ham's Vegetable Compound before the baby's birth, so you can see how much it helped me. I cannot praise it too highly for what it has done for me. I took all kinds of medicine, but the Veg-etable Compound is the only one that has helped me for any length of time. I recommend it to any one with troubles like mine and you may use my letter for a testimonial." —Mrs.ROBERTMCCULLEY, Port Greville, Nova Scotia. Many, many letters are received giv-ing the same sort of experiences as is given in this letter. Not only is the mother benefited, but these good results pas on to the child. Mo harmful drugs are used in the preparation of this medicine—just roots and herbs— and it can be taken in safety by the nursing mother. 98 out of every 100 women reported benefit from its use in a recent canyaes
