

## Make Your Dreams Come True

Fond parents dream of a bright future for their children.

They dream of the literary and musical education they are going to give their daughter, and of the high position she will take in her sphere of womanhood.

They dream of the education they are going to give their son and vision him some day as a clergyman, a famous lawyer, an eminent physician, a prominent financier, or a captain of industry.

But to make these dreams come true

—or even partly true—requires foresight, planning and money.

To provide the money what plan so wise as to buy Victory Bonds for each child?

Thousands of parents bought Victory Bonds for their children in 1917 and 1918

Surely you will be among the thousands of loving parents who will buy Victory Bonds for their children—this year?

Victory Bonds may be bought on instalments at such easy terms that every parent who so wishes may buy

## Buy Victory Bonds For Your Children
