MERCHANTS Rise to Your Real Opportunities.

YOUR reputation and your success as a Merchant depend, above everything else, on the accuracy and promptness with which you fill your orders.

We offer you a real opportunity to have all your orders to us filled by experts—with absolutely accurate and exact results. Not only that, but every order that comes to us goes straight through and back to you in the shortest possible time.

Think what it means to be able to turn all your orders over to us—no matter how particular or how simple—and be perfectly sure that they will come right back to you complete in every way. Our service, our men and our equipment practically become your own—without the slightest bother or care on your part.

There is never any question about accuracy or the quality of material when you send your orders to us. We buy our goods from all factories, wherever we can get the BEST material, and that is the only kind that you or we can afford to use.

Hundreds of others have proved the value of our service. Why don't you join them by sending us your next order?

HALLEY & COMPANY,
Wholesale Dry Goods Men. St. John's.

Board of Trade Reports

July 29. From A. J. Pearce, (Twillingate to Trump Island)—The catch is 1201 qtls. with 237 for last week. From 35 to 40 traps and 40 skiffs are fishing. The trap fishing on the whole is quite improved. Some few in the prime berths did well for 2 or 3 days and one had a haul of 40 bris. Three or four others had from 1/4 to 2 bris. Hook and line prospects have not improved this week, the average catch being from 1/4 to 1/2 brl. Herring is fairly plentiful for bait.

July 29th. From J. A. Tuck (Hant's Hr. to Lead Cove)—The traps to-day did very well but for the last two weeks they, have nothing to report. The hook and line fishery is practically a failure. Sixty-five traps and 25 boats are fishing and the catch to date is 3700 qtls. with 200 for last week. Prospects are not very good and caplin is getting scarce but a little squid is now seen.

July 29th. From T. McCarthy (Re-nues to Seal Cove)—Prospects are very poor but there is plenty of bait, squid, caplin and herring. The total catch is 2050 qtls. Nine traps, 16 dories, 26 skiffs and 7 boats are fishing.

July 29th.—From J. Cunningham (Connore Bay to Red Island)—The trap fishing is ended, but there is good prospects for hook and liners if squid continues plentiful. Five Nova Scotia bankers have baited here, and there is squid sufficient for the local boat and to spare. The outlook is good. Sixty dories, skiffs and boats are fishing, and the catch to date is 13,109 qtls. with 350 for last week.

July 29th.—From J. F. Williams (Bay Bulls to Long Pt.)—Prospects are poor, and nothing is being done with trawls, though there is plenty squid for bait. Twenty-eight traps, 25 dories and skiffs and 22 motor boats are fishing. The total catch is 7,410 qtls. with 265 for last week.

July 29th.—From J. Britt (Blanc Sablon to Forteau)—This has been a very good week, and traps and hook and liners have done well. There is plenty cod in deep water and sufficient caplin for bait. The catch is 11,100 qtls. and for the last week 1,000. Twenty traps, 80 dories and skiffs and 10 boats are fishing. Prospects are very good.

LOCAL ITEMS

A local express with the S.S. Lady Sybil's mail is due this afternoon.

The use of Carbonvoid means Bright Spark Plugs, Clean Cylinders, no Carbon, less trouble, no

The S.S. Meigle is due to arrive from the Labrador route this afternoon.

Several of the volunteers went out by train last evening on brief furlough.

Carbonvoid gives increased mileage and more power.

A great many of our local fishermen are taking in their traps for the season. Cod now being scarce they will now use the hand-line, the majority having done fairly well.

Some seventy round trippers arrived by the Stephano yesterday from the States and Canada.

S.S. Sagona called last night for the Labrador taking a full freight, and ten passengers. She goes as far as Hopedale this trip.

Carbonvoid saves 25% your fuel cost.

The S.S. Matstua was still in the same position at Holyrood yesterday, and there is hope of her being refloated.

Two street cars running for the barn last night collided. Both were damaged considerably and it is fortunate nobody was hurt.

Mr. Fisherman, to save nine-tenths of your Engine trouble, use CARBONVOID.

Inspector General Sullivan went out by Tuesday's express to Winsor, Ont. to attend the annual convention of the fire Chiefs. He will be absent from the city for about four weeks.

The yacht Czarina recently purchased from Lord Brass, by the Monroe Export Co. arrived yesterday after a 25 days passage from Coves. The auxiliary engine, which has been in use for some time will be removed to enlarge her carrying capacity, and after being refitted she will load cargo for Brazil.

The use of Carbonvoid means more Power, less Fuel, perfect Ignition, easier Starting, and uniform Combustion. IT PAYS.

Needs Repairs

People both from the city and country who drive over the Topsail road are complaining of the condition of that section of the road from Topsail to Kelligrews and further west. There seems to be very little money spent on this part of the road this season, and as that important section is being gradually worn out by reason of the immense amount of traffic which goes over that road, particularly in the caplin season, and no special effort is being made to rebuild this part of the road, which, in some places, is in a disgraceful condition and immediate attention should be given to it by the Government.

SNOW ON THE TOPSAILS

Wednesday, about noon, the temperature in the vicinity of the Gaff Topsails was down to freezing point, and for about twenty minutes snow fell in large flakes. Sixteen years ago, the same date, snow fell to the depth of two inches and the thermometer registered four degrees of frost.

S.S. Florizel, Capt. Martin, leaves New York to-morrow for here via Halifax.

The garden party which was to take place at Kelligrews on Wednesday but which was postponed owing to the storm, was held yesterday and was fairly well attended. The proceeds are in aid of the parsonage fund.

The Reid Company's private yacht Fife which has been undergoing repairs for the last month, is now in first class condition. Her decks have been re-caulked, engines overhauled and her cabins repainted and repaired.

The civic collection for the week just closed amounted to \$10,221.22, as against \$2,668.31 for the corresponding week last year. The increase is mainly due to the importations of coal. The expenditure amounted to \$3,964.97, as against \$2,600.03, for the corresponding week last year.

The work of discharging the lumber cargo of the S.S. Athos is being continued daily and her deck load is now almost landed. She will likely be docked about Wednesday next when it will be decided whether she will receive permanent or temporary repairs.

Fresh Native Strawberries and Creamy also Choice Ice Cream, at WOOD'S CANDY STORE July 25th.

To what depths have the Germans sunk to avoid the British blockade!

YOU WON'T BE ANNOYED by long waits for papers you need in a hurry, and serious losses of important documents will be averted if you invest in

Weekly Meeting Civic Board

Messrs. Hutchings and Morris, J.P.'s, Look for Their Money in Connection With the Work Done in the Revision of Voters List in Recent Municipal Election

Mayor Gosling presided at last night's meeting, Councillors Morris, Tait, Brownrigg, Ayre and Vinnicombe attending.

W. R. Warren, K.C., wrote that E. A. Hayward, agent for the Warren Estate, objected to the increase of apportionment, which amounted to about 30 per cent. Mr. Warren cited the law in the matter and asked that the Council adjust its claim. The Council is unable to act, as objection should have been made when the Court of revision was in session.

W. R. Howley, K.C., wrote suggesting that a monument be erected to perpetuate the memory of the Newfoundlanders who died in defense of the Empire. Mr. Howley will be thanked for his letter, but already the Mayor and His Excellency the Governor have been discussing the matter, and something definite will be done at an early date.

John Drabury, sanitary man, claimed two days' pay, which was stopped while his child was dead and he was unable to work.

The amount will be refunded. T. J. Kennedy asked permission to repair fence, Cochrane St.

Granted, subject to Engineer's approval.

R. T. McGrath, for Jas. J. Collins, asked permission to erect fence around property, Pennywell Road.

Referred to Engineer. Jas. King made application for position as watchman at the Sanitary stables.

Application filed for further consideration.

The Colonial Secretary and Minister of Fisheries asked that the Medical Health Officer be given offices in the City Hall.

Yes, if the offices there are suitable. A. Snelgrove, Sudbury St., complained of neglect of sanitary staff calling for ashes in that street. The Sanitary Supervisor will deal with the matter.

D. Monroe submitted plans of out-house, to be built off Gower St.

Referred to Engineer.

Chas. H. Hutchings wrote asking that himself and F. J. Morris, K.C., be paid \$50.00 each, and Sergt. O'Leary \$10 for work done in the revision of the list of voters, for the Municipal election.

Ordered to be paid. Capt. E.H. Dawe protested against the proposed extension of Patrick St.

No action will be taken. A telegram from Engineer Longley in reply to one sent as regards the laying of pipe at the Intake George's Pond was received. The telegram was of technical character, and the Engineer Ryan will decide for himself.

With the passing of pay rolls and some routine matter the meeting adjourned at 10.30.

In last week's report of the Municipal Council Mr. J. Skinner was referred to as complaining of the condition of the steps and wall at Beck's Cove. This was incorrect. It was the condition of the foot walk that was complained of, and the complainant is fully justified.

THE CRESCENT

The week-end show at the Crescent Picture Palace to-day is a very good one. Maurice Costello and Leah Baird are presented in "The Gods Redeem," a story of crooks reformation, produced in two reels by the Vitagraph Company. "Locked In" is a gripping meo-drama by the Selig Co. "The Desert Calls its own" a strong Western drama. "Count Em" Hughie Mack and Anita Stewart feature in this lively comedy by the Vitagraph Company. The musical programme for this big show is a feature in itself played by Professor McCarthy.
