RECEIVED BY WIRE.

MINT FOR CANADA

England Has Granted Permission for its Establishment At Once.

WILL STRIKE SOVEREIGNS AND COINS.

Twenty-Six People Missing as Result of New York Fire.

SOUTH AFRICAN GOLD SEIZED

Queen Victoria Approves Several Appointments—Reported Bryan Gains McKinley 3 to 1.

Ottawa, Nov. 4, via Skagway, Nov. 8.—The minister of finance announces that arrangements have been completed for the establishment of a mint. This is designed as another step in the direction of national independence for Canada. A mint for the striking of Canadian coins will also probably be established at Vancouver. The minister of finance says:

"As we have obtained the consent of England to establish branch mints in Canada for the striking of Canadian coins and British sovereigns I anticipate that the next session of parliament will establish assay offices at convenient points in order that gold taken from Canadian mines may be coined into Canadian money."

Will Be Close.

Skagway, Nov. 8.—Passengers who arrived here today assert that there were large claims being made for Bryan when they left Seattle on the 4th, but they do not think otherwise than that McKinley has won. Betting throughout the country generally was 3 to 1 in favor of McKinley.

Many People Missing.

New York, Nov. 4, via Skagway, November 8.—In addition to the many maimed and injured in the Tarrant

drug warehouse fire of a week ago, 26 people are missing entirely nor were any remains found when the debris was cleared away. As the drug company had a much larger stock of explosives than allowed by law to carry, the insurance companies are not liable for the losses sustained.

Gold Shipment Seized.

Hamburg, Germany, Nov. 3, via Skagway, Nov. 8.—Two and a half million marks arrived here today by steamer from Delagoa Bay and was at once seized by order of the provincial court for the alleged purpose of reimbursing the insurance companies of Hamburg for gold belonging to them which was held by the Transvaal government during the war. It is denied that the gold on which the embargo is laid was shipped by Kruger.

The Queen Approves

London, Nov. 3, via Skagway, Nov. 8.—The queen has approved the appointment of Lord Salisbury as premier and lord of the privy seal; of the Marquis of Lansdown as secretary of foreign affairs; of St. John Broderick as secretary of war; of the Earl of Selbourne as first lord of admiralty, and C. F. Ritchie as secretary of home affairs.

He Had a Tip.

If the promoters of wireless telegraphy do not get a move on, their scheme will be a back number before it is even made to any extent effective. Wireless telegraphy is being superseded by a later device which is known only to a Dawson man and he declines to give his name.

Yesterday morning a stranger called at the Nugget office where, without solicitation, he imparted the startling information, "Bryan is ahead." When asked how he knew he said he had a means for acquiring accurate information by a system known only to himself, and that he had just exercised his system a few minutes previously and had learned beyond dispute that, at that hour, Bryan was 15,000 ahead. He did not state where Bryan was ahead, or whether he was ahead in the count of any particular state or ahead in a game of "draw," but he was 15,000 ahead. When asked if he had received any tips on the result of the election in Canada he said he had not, but that was for the reason that he is not acquainted with any person in outside Canada. He said if he knew anyone in Canada where the election had been held he could get the result in ten minutes.

Later in the day the man returned and declared that he had received another message and that Bryan was still ahead, but that the count was very close. He was told to return today and announce the final result, but up to the hour of going to press he had not put in an appearance. His non-appearance may be due to the election taste wearing away and taking with it his election enthusiasm.

Engineers in Session.

The Yukon Engineers' International Association held a regular meeting last night in their rooms, corner of Second avenue and Sixth street. Among other business of considerable importance, the following officers were elected: M. E. Clough, president; T. J. Fitzgerald, vice-president; E. L. Brant, secretary and treasurer. A regular meeting of the association is held every Wednesday evening at 7:30 o'clock. All engineers are cordially invited to attend the meetings.

The Temperature Rises.

The minimum temperature recorded by the thermometer last night was five above zero, and it had risen three degrees at 8 o'clock this morning.

Curling Rink Flooded.

The Klondike took another freak today and rose sufficiently to flood the reservation slough, covering the curling rink with sufficient water to put the ice in excellent shape for the progress of the game as soon as cold weather sets in.

It was on the program to flood the rink from the mains of the water company, but now that Dame Nature has lent a helping hand it will not be found necessary. Probably a few more days will see the game in full swing, when the hearts of the curlers will bound with joy.

CHARLTON INNOCENT

Of Having Sold a Claim By Falsely Representing it To Contain Gold.

HIS WIFE'S STORY UNSHAKEN

By Crown Prosecutor Wade's Attempts to Make Her Evidence

DAMAGING TO THE DEFENSE.

The Tyrrell Appeal Cases are Being Heard by Justice Dugas This Afternoon.

The charge against Charlton of having sold a worked out mining claim as virgin ground with gold in it has been dismissed as unsubstantiated.

The evidence of Mrs. Charlton was very strong and positive on the point that no representation had been made to the purchasers that there was gold in paying quantities in the ground, and also, that as far as she could tell from the looks of the ground, it had been untouched previous to the time her husband began working it, and that the portions represented by him as being virgin ground were so.

Mr. Wade failed to shake the testimony of the witness who refused to be drawn into any statement concerning matters at all beyond her personal knowledge. An attempt was made to lead her into making the admissions that there had been collusion between Charlton and one of the witnesses who had testified the day previous, but beyond admitting that he had upon several occasions asked her husband for money in her presence, she said she knew nothing about the matter. She did not know why the money so asked for was demanded.

There was no court held in the room on the top floor of the courthouse, as the cases upon the list were not ready. This morning, Justice Dugas' time was occupied by a series of appeal cases from the lower court.

There are about a dozen of these cases, all against the steamer Tyrrell by members of her crew who, sometime since sued for wages, and have now appealed from the decision of the lower court. A list of cases to be tried next week will be posted this afternoon. Good progress is being made in the effort to clear up the calendar, and it is expected that each court will dispose of about a dozen cases a week.

The jury trials begin next Thursday, the first of which will be that of James Slorah.

May Reach Here Saturday.

Louie Cardinel, the Indian mail carrier who, with a companion, left here for Thistle creek Monday morning, reached Ogilvie Tuesday evening after two full days of very hard travel. They would go on to Thistle yesterday and it is likely that they would leave there this morning for Dawson with the 600 pounds of mail which left Whitehorse on the 19th of last month and will in the event of a few more delays, be yellow with age before it arrives. But barring further accidents, such as dropping through the ice into the chilly waters of the Yukon, the mail should reach here some time on Saturday. This trip and that of another consignment which left Whitehorse a few days ago, will doubtless be the hardest to make of any of the entire season, as after the trails are thoroughly broken the C. D. Co. is certain its carriers will

cover the distance between Whitehorse and Dawson in 72 hours, which will be better time on the up trip than has ever yet been made by steamers. After the next few days it is not apprehended that there will be any more delay in the matter of receiving and dispatching mail before the breaking up of the ice next spring.

The first outgoing mail over the ice from Dawson will leave early tomorrow morning and will comprise between 600 and 700 pounds of straight letter mail, exclusive of registered letters. On Monday another mail will be dispatched at which time registered letters and packages and general mail will be included. On next Thursday another general mail will be dispatched and on every five days thereafter during the winter.

It is All in the Weather.

An old time politician from the States called at the Nugget office yesterday and, in talking of the national election which had taken place the previous day, remarked that the result would depend largely on the conditions of the weather on election day; that if it was a nice, bright day as is usual at this season of the year on the outside, McKinley would win in nearly every northern state; but if it chanced to be stormy, and, as frequently happens, a premature snow storm was on, many states that are normally Republican would go for Bryan. The gentleman said that he has clearly observed election day weather for the past 30 years and that a rough stormy election day is always favorable to Democracy. He said that, as a rule, the "unwashed" are not so afraid of exposure and will face a storm when the former will not venture out. He further stated that if he knew the condition of the weather generally throughout the States on Tuesday he could give the result of the election without further information.

Ladies Relief Association.

The members of the Ladies' Relief Association met at the home of the president, Mrs. Te Roller, at 3 o'clock yesterday afternoon when the situation as it presents itself was thoroughly discussed and reviewed. There is as yet but very little apparent destitution, a Salvation Army member present stating that a close canvass of the city resulted in finding only one case where immediate aid is required. But as it is feared that a sense of pride may cause many ladies to refrain from asking for aid, the association decided to take immediate steps for the care of all women who are here and without employment or means of support.

It was, therefore, resolved to establish at once an exchange bureau which is for the present at Weld's store on Third avenue a few doors south of the new postoffice at which all women in quest of employment are asked to call and register the hours in which the exchange is open being from 10 to 11:30 a. m., 3 to 5 and 7:30 until 9 p. m. During these hours some member of the association will be present to register the applicant and take and give such information as may be pertinent to the cases of the various applicants.

Any person in Dawson having any repairing such as patching or darning is earnestly requested to leave the same at Weld's store, where it can be given to some needy woman and for which work only the going rates will be charged. Later, and as soon as arrangements can be made a laundry will be started on the same principle as the repairing department. A comfortable lodging house is also in contemplation.

A membership fee of \$2 was agreed on for members of the association, this money to be used in providing material with which the needy may work and for relieving any immediate wants that may be reported. The next meeting of the association will be at 3 o'clock next Wednesday afternoon in the Methodist church.
