

The Song of the Hair

There are four verses. Verse 1. Ayer's Hair Vigor stops falling hair. Verse 2. Ayer's Hair Vigor makes the hair grow. Verse 3. Ayer's Hair Vigor cures dandruff. Verse 4. Ayer's Hair Vigor makes the scalp healthy, and keeps it so. It is a regular hair-food; this is the real secret of its wonderful success.

REVISITING OLD SCENES

Greenbush, July 27, 1908.

Mr Editor,—Kindly allow space to an old subscriber to pen a few lines.

I have had a strong desire to visit the scenes of my mother's childhood. Her birthplace was Oak Leaf. I left home on Tuesday, 21st inst., and passed through the townships of Yonge, Escott, Lansdowne, Bastard and South Crosby, and found things very much changed. Nearly all my relatives had passed over to the great majority. I visited the churchyard where all that were mortal of my grandfather and several aunts and uncles were laid, who passed away about the years 1830 to 1860. The sight of the several monuments caused a great solemnity to rest upon my feelings. One uncle's grave I could not find for the reason that his relatives had failed to place a monument to show where his dust was resting.

While at Oak Leaf, I was hospitably entertained by the oldest man in the settlement, Mr. George Johnston, and his good wife. In every neighborhood I visited I perceived it was all hurry, trying to save hay that had become ripe and should have been housed long before. The hay in the townships of Lansdowne and Crosby is very heavy. The farmers will not need to purchase much pressed hay next winter.

In South Crosby I visited Chaffey's Lake where I spent several seasons in my young days in drawing cordwood. A great change had taken place. The large pine trees and the white birch that stood there had been felled by the woodman's axe and are replaced by young, healthy second-growth pines. Where then, only a few settlers' houses were to be seen there are now hundreds of campers' tents and cottages and a very large house of resort, all of which are nicely kept. In visiting the place I walked into the house where I boarded 57 years ago. After calling on many other relatives, I finished with my brother in Newboro and returned home, having spent a very pleasant time.

Richard Kerr.

Distributing The Revenue

The reports of the various departments of a great Railway system, would if made public, often surprise the readers of current news. It has been gathered that the Grand Trunk Railway System has spent, within the past few years, not less than fifteen million dollars in double tracking the main line, and that the pioneer Canadian Railway now operates the longest stretch of double track under one management, in the world.

In addition to this they have spent other millions in stations, shops and other improvements, thus increasing the carrying capacity of the road contributing to the upbuilding of the country, and at the same time affording added security to the lives and property of its patrons which the installation of block signals on a single tracked line could never secure. By the expenditure of all the millions in Canada, they are distributing the Revenue, or a good share of it, among the people.

BEEKEEPING

From a bulletin just issued by the Ontario Department of Agriculture it is evident that beekeeping industry has not yet entirely recovered from the heavy losses sustained in 1907. These losses were due in many cases to lack of proper care, and the Bulletin sums up the situation by saying:

To the farmer who will make a business of keeping and looking after from 10 to 25 or 50 colonies, a splendid profit may be made on the necessary investment. Like every other business care and knowledge is required, and most of the latter can be gained only by experience. Small beginning should be made and the natural increase under favorable conditions will soon give the number of colonies required. It must be understood that the profits are as great as from any other part of the farm, provided the same care is exercised in looking after the bees as is usually given to other stock or to the orchard and to the alfalfa clover fields. They take nothing from the soil or other parts of the farm yet give handsome returns for their keep.

THREATENED WITH PARALYSIS.

Peter E. Summers, of Kalamazoo, Mich., relates his experience: "I was troubled with Nervous Debility for many years. I lay it to indiscretion and excesses in early youth. I became very despondent and didn't care whether I worked or not. I imagined everybody who looked at me guessed my secret. Imaginative dreams at night weakened me—my back ached, had pains in the back of my head, hands and feet were cold, tired in the morning, poor appetite, fingers were shaky, eyes blurred, hair loose, memory poor, etc. Numbness in the fingers set in and the doctor told me he feared paralysis. I took all kinds of medicines and tried many first-class physicians, wore an electric belt for three months, went to Mt. Clemens for baths, but received little benefit. While after, I was induced to consult Dr. Kennedy & Kennedy, though I had lost all faith in doctors. Like a drowning man I commenced the New Method Treatment and it saved my life. The improvement was like magic—I could feel the vigor going through the nerves. I was cured mentally and physically. I have sent them many patients and will continue to do so."
